PART 257—SOYBEAN LOANS AND PURCHASES

1945 SOYBEAN LOAN AND PURCHASE PROGRAM BULLETIN

The Commodity Credit Corporation (hereinafter called "Commodity") has authorized the making of loans on farmstored soybeans and the purchase of soybeans stored in approved warehouses or delivered to designated delivery points, pursuant to these instructions. It is contemplated, however, that producers will dispose of most of their soybeans through regular trade channels rather than through this loan and purchase program. Where regular trade facilities are not available or adequate and it becomes necessary for Commodity to purchase soybeans, all such purchases for Commodity will be made by county agricultural conservation committees.

AUTHORITY: §§ 257.42 to 257.78, inclusive, issued under section 302 of the Agricultural Adjustment Act of 1938, as amended (52 Stat. 43; 7 U.S.C. 1302).

GENERAL INSTRUCTIONS

§ 257.42 County agricultural conservation committees. County committees will supervise the loan and purchase program. All purchase and loan documents must be signed by a member of the county committee-purchase documents by a committeeman of the county in which the soybeans were produced, and loan documents by a committeeman of the county in which the agricultural conservation program records are kept. State and county committees shall determine or cause to be determined the quantity and grade of the soybeans to be placed under loan or purchased by the committee, and the amount of the loan or purchase. All loan and purchase docu-

ments shall be completed and approved by the county committee, which shall retain copies of all documents, *Provided, however*, That the county committee may formally designate certain employees of the county association to execute such forms on behalf of the committee. County agricultural conservation associations shall collect a service fee of 1 cent per bushel for each loan to meet the expenses incurred in the operation of the program. No service fee shall be collected from the producer in the case of purchases.

§ 257.43 Eligible producer. An eligible producer shall be any person, partnership, association, or corporation, producing soybeans in 1945 as landowner, landlord, or tenant.

§ 257.44 Liens. The soybeans placed under loan or purchased must be free and clear of all liens, or if liens exist on the soybeans, proper waivers must be obtained for each lienholder. The names of the holders of all existing liens on the soybeans, such as landlords, laborers, threshers, or mortgagees, must be listed in the space provided therefor in the chattel mortgage (C. C. C. Grain Form AA, Revised, or C. C. C. Commodity Form AA) for loans, and in the Offer of Sale (C. C. C. Soybeans Purchase Form B) for purchases. The Waiver on the Offer of Sale, or the waiver and consent to mortgage the soybeans and the payment of the proceeds of the loan and the proceeds of the sale of the soybeans solely to the producer, as contained in the mortgage, must be signed personally by all lienholders listed or by their duly authorized agents; or, if a corporation, by an officer authorized to execute such instruments. Waivers of lienholders may be executed on separate instruments if complete identification of the commodity and producer is shown. The proceeds of the loan or purchase may be made payable to the producer and/or such other person or concern as the producer may direct in the space provided on the producer's note (C. C. C. Grain Form A. Revised, or C. C. C. Commodity Form A) for loans, and on the Offer of Sale for purchases. Producers should be sure to determine whether soybeans offered for sale or as collateral for loans are covered by previous mortgages or other liens.

§ 257.45 Regional office of Commodity Credit Corporation. The soybean loan and purchase program will be administered by the Regional Director, Commodity Credit Corporation, 208 South La Salle Street, Chicago 4, Illinois.

LOANS

§ 257.51 Eligible soybeans for loans. Soybeans eligible for loans must be stored on farms and shall be of any class grading No. 4 or better with respect to factors other than moisture and having a moisture content not in excess of 14 percent, which were produced in 1945, the beneficial interest in which is in the producer and has always been in him or in a former producer whom he succeeded before the soybeans were harvested. Soybeans grading weevily, or

which are musty, sour, heating, or have any objectionable foreign odor shall not be eligible for loan. Loans will be made to eligible producers on soybeans stored on the farm in approved storage facilities, in the States of Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin, and such other States, except those listed immediately below, as may be approved by Commodity.

Commodity will not make loans on soybeans in the following States: Alabama, Arkansas, Connecticut, Florida, Georgia, Louisiana, Maine, Massachusetts, Mississippi, New Hampshire, Oklahoma, Rhode Island, South Carolina, Texas, and Vermont.

§ 257.52 Basic loan rates. The basic loan rates per bushel for Class I (Yellow) and Class II (Green) soybeans containing 14 percent moisture and grading No. 2 or better, except for green damage, in accordance with U. S. Grain Standards, shall be \$2.04 per bushel.

The basic loan rate per bushel for Class III (Brown), Class IV (Black), and Class V (Mixed) soybeans, containing 14 percent moisture and grading No. 2 or better, except for green damage, in accordance with such Standards, shall be

\$1.84 per bushel.

Mixtures of Classes I and II eligible soybeans which contain 5 percent (actual) or less of Classes III and IV soybeans and bicolored soybeans, either singly or in combination, shall take the applicable loan rate for Classes I and II soybeans. If more than 5 percent of Classes III and IV and bicolored soy-beans, either singly or in combination, are contained in a mixture of eligible soybeans which otherwise would take the loan rate for Classes I and II soybeans, the mixture shall take the applicable loan rate for Classes III, IV, and V soybeans. Mixtures of green soybeans in Class I and yellow soybeans in Class II shall be disregarded for purposes of determining applicable loan values.

§ 257.53 Premiums and discounts—
(a) Premiums. Premiums shall be added to the basic loan rates for eligible soybeans which have a moisture content of 13½ percent rounded or less. The premium schedule follows:

MOISTURE

	Pren	nium
Percent	per l	bushel
13.3-13.7 both	inclusive	\$0.01
12.8-13.2 both	inclusive	. 02
12.3-12.7 both	inclusive	. 03
11.8-12.2 both	inclusive	.04
11.3-11.7 both	inclusive	. 05
Below 11.0-11.	2 both inclusive	. 06

(b) Discounts. Discounts from the basic loan rates shall be assessed in accordance with the attached schedule.

(c) Foreign material and dockage. Dockage and foreign material other than dockage, which, singly or in combination, total 2 percent or less, shall not be deducted from the gross weight of the soybeans. If the total weight of foreign material and dockage combined is in excess of 2 percent, the excess shall be deducted from the total gross weight of soybeans in the determination of the net number of bushels of soybeans. For the

purpose of this determination, dockage shall be computed in whole percents. Less than 1.0 percent actual dockage shall be disregarded and fractional percentages in excess of 1 percent shall be rounded to the next lower whole percent. Foreign material percentages shall be stated in tenths.

§ 257.54 Date of maturity and interest rate. Loans on eligible soybeans shall be available through January 31, 1946, and shall mature on demand but not later than April 30, 1946. All loans shall bear interest at the rate of 3 percent per

§ 257.55 Storage allowance. In addition to the amount of the loan disbursed to the borrower a storage allowance of 7 cents per bushel for each (net) bushel of soybeans (see § 257.53 (c) above) placed under loan shall be advanced to the borrower at the time the loan is made. This storage advance shall be earned by the producer for each net bushel of soybeans, and shall not be repayable to Commodity (1) if the soybeans are delivered to Commodity on or after April 30, 1946, or (2) if, pursuant to demand by Commodity for repayment of the loan, the soybeans are delivered to Commodity prior to April 30, 1946, provided such demand for repayment was not due to any fraudulent representation on the part of the producer or to the fact that the soybeans, or any part thereof, were converted, damaged, threatened with damage, abandoned, or otherwise impaired. If, pursuant to a demand by Commodity for the repay-ment of the loan, or with the consent and approval of Commodity, the soybeans are delivered to Commodity prior to April 30, 1946, and the producer has not earned the 7 cents per bushel storage allowance. a storage allowance computed at the following rates shall be earned, provided the producer has not made a fraudulent representation in the chattel mortgage or in connection with the loan:

6 cents per bushel if delivered during the

month of April 1946, 5 cents per bushel if delivered during the month of March 1946, 4 cents per bushel if delivered during the

month of February 1946.

3 cents per bushel if delivered during the month of January 1946.

2 cents per bushel if delivered during the

month of December 1945.

No storage payment shall be earned if the soybeans are delivered prior to December 1945.

A storage payment cannot be earned on a greater number of bushels than is specified in the chattel mortgage. On delivery of the collateral, any deficiencies due Commodity shall be deducted from any credits which may be due the producer from Commodity. The producer shall pay to Commodity any deficiency due Commodity. If the soybeans are redeemed, the producer is required to repay the storage advance plus accrued interest.

§ 257.56 Storage. Eligible storage shall consist of farm bins and granaries which are of such substantial and permanent construction, as determined by the county agricultural conservation committee, as to afford safe storage for the soybeans for a period of 1 year and afford protection against insects, rodents, other animals, thieves, and weather. Soybeans must have been stored in the granary for a reasonable period, as determined by the county agricultural conservation committee, prior to inspection for measurement, sampling, and sealing. County agricultural conservation committees shall inspect and approve storage facilities and shall arrange for measuring, sampling, grading, and sealing the soybeans collateral in approved structures. Chattel mortgages covering soybeans stored on the farm under loan must be executed and filed in accordance with the applicable State law. Where the borrower is a tenant, the expiration date of the lease shall be given in section 1 (e) of the chattel mortgage. If the expiration date of the lease is prior to July 1, 1946, the borrower must obtain, from the owner and other interested parties, consent that the collateral may remain in the described storage structures until June 30, 1946, without any charge to Commodity other than that agreed to be paid to the borrower for storing the collateral. The consent agreement is set forth in the chattel mortgage. Each producer must designate in section 1 (b) of the chattel mortgage a shipping point reasonably convenient for the delivery of the soybeans, as determined by the county committee. A separate note and chattel mortgage must be submitted for soybeans stored on each quarter section of land.

Commodity shall accept delivery of all the producer's soybeans in the bin or bins in which all or a portion of the soybeans therein are under loan. Each delivery shall be limited to the number of bushels that was in the bin at the time the loan was made, less any amount that has been removed since the loan was made. The producer shall be given credit for the number of bushels delivered at the loan rate applicable to the grade and class of soybeans delivered. If the soybeans delivered are not of an eligible loan grade the actual market value shall be furnished by the regional director of Commodity.

§ 257.57 Determination of quantity of soybeans. Loans shall be made at values expressed in cents per bushel. A bushel shall be 60 pounds of soybeans free of dockage and foreign material in excess of 2 percent when determined by weight, or 1.25 cubic feet of soybeans testing 60 pounds per bushel when determined by measurement. In determining the quantity of soybeans by measurement the following adjustment shall be made, fractional pounds of the test weight being disregarded:

§ 257.58 Lending agency and source of loans. A lending agency shall be any bank, cooperative marketing association, corporation, partnership, or person making loans in accordance with this bulletin, which has executed the Contract to Purchase on 1940 C. C. C. Form E. Producers may obtain loans through approved lending agencies or direct from Commodity.

§ 257.59 Purchase of loans. Commodity will purchase, without recourse, eligible paper held by approved lending agencies with whom Commodity has entered into a Contract to Purchase. Notes held by lending agencies must be tendered to Commodity for immediate or deferred purchase within 10 days of written request, or at least 10 days prior to maturity in the absence of written demand. Notes must be dated prior to February 1, 1946, and must be executed in accordance with these instructions, with State documentary revenue stamps affixed thereto where required by law. Notes executed by an administrator, executor, or trustee shall be accepted only where legally valid. The purchase price to be paid by Commodity for notes accepted shall be the outstanding principal due on such notes, plus accrued interest at the rate of 11/2 percent per annum from the date of disbursement by the lending agency to the date of payment. Under the terms of the Contract to Purchase lending agencies are required to report weekly, on C. C. C. Form F, all repayments or collections on producers' notes held by them and to remit with such report, to the office of the regional director of Commodity Credit Corpora-tion at Chicago, Illinois, an amount equivalent to 11/2 percent per annum on the principal amount collected from the date of the note to the date of repay-

§ 257.60 Release of collateral. A producer may obtain release of the collateral by paying to the lending agency or Commodity, whichever holds the note, the principal amount due thereon (including the storage advance) plus accrued interest. If the note is held by an out-of-town agency or by Commodity, the producer may request that the note be forwarded to a local bank for collection. In such case, the local bank will be instructed to return the note to the sender if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon repayment of a loan, the county agricultural conservation committee shall be requested to release the mortgage by filing an instrument of release or by a marginal release on the county recorder's records.

§ 257.61 Release of part of collateral. A producer may obtain release of all or part of the collateral in a bin by paying to the holder of the note the loan value, plus storage advanced and accrued interest, for the soybeans released. Form Commodity Loan 29 must be prepared and distributed, in accordance with instructions issued by the Agricultural Adjustment Agency, for each partial redemption.

§ 257.62 Insurance of farm-stored soybeans. Commodity Credit Corporation will not require producers to insure their 1945 farm-stored soybeans placed under loan. In case of a total loss of the soybeans resulting from an external cause, the producer will not, except as stated below, be held personally liable on the note, and Commodity Credit Corporation will allow the producer to retain the full storage payment of 7 cents per bushel. In case of a partial loss of the soybeans, resulting from an external cause, the producer will not, except as stated below, be held personally liable for that part of the indebtedness secured by the soybeans lost, and the producer's loan will be credited with the full storage payment of 7 cents per bushel on the soybeans lost. No loss will be assumed by the Corporation. however, if it is determined that the loss was caused by conversion by the producer, or his negligence, or caused by vermin, or there has been a fraudulent representation on the part of the producer in connection with

PURCHASES

§ 257.68 Soybeans eligible for purchase. Soybeans eligible for purchase shall be soybeans of all classes and grades, which were produced in 1945, the beneficial interest in which is in the producer and has always been in him, or has been in him and a former producer whom he succeeded before the soybeans were harvested, except that soybeans which grade weevily, sour (other than because of green damage), musty, heating, or which have a "commercially objectionable foreign odor" shall not be eligible for purchase by Commodity, except as provided in § 257.73. Soybeans which grade sample or would grade sample because of having an odor due solely to green damage or being sour due solely to green damage shall be eligible for purchase by Com-

Purchases will be made in all States through June 30, 1946.

§ 257.69 Basic purchase prices and specifications. The basic purchase price per net bushel (see § 257.74 below) of eligible Class I (Yellow) and Class II (Green) soybeans, containing 14 percent moisture and grading No. 2 or better except for green damage, in accordance with U.S. Grain Standards, sold and delivered to normal delivery points, shall be \$2.04 per bushel.

The basic purchase price of Class III (Brown), Class IV (Black) and Class V (Mixed) soybeans, containing 14 percent moisture and grading No. 2 or better, except for green damage, in accordance with such Standards, shall be \$1.84 per bushel.

Mixtures of Classes I and II eligible soybeans which contain 5 percent (actual) or less of Classes III and IV and bicolored soybeans, either singly or in combination, shall take the applicable loan rate for Classes I and II soybeans. If more than 5 percent of Classes III and IV and bicolored soybeans, either singly or in combination, is contained in a mixture of eligible soybeans which otherwise would take the loan rate for Classes I and II soybeans, the mixture shall take the applicable loan rate for Classes III, IV, and V soybeans. Mixtures of green soybeans in Class I and yellow soybeans in Class II shall be disregarded for purposes of determining applicable loan values.

§ 257.70 *Premiums*. Premiums shall be paid above the basic purchase price for eligible soybeans which have a moisture content of 13½ percent rounded or less. The premium schedule follows:

MOISTURE

		Prei	nium
Per	cent	per	bushel
13.3-13.7	both	inclusive	\$0.01
12.8-13.2	both	inclusive	.02
12.3-12.7	both	inclusive	. 03
11.8-12.2	both	inclusive	.04
11.3-11.7	both	inclusive	. 05
Below 11.	0-11.	2 both inclusive	.06

§ 257.71 *Discounts*. Discounts for soybeans, from the basic purchase price, shall be assessed in accordance with the attached schedule.

§ 257.72 Green damage odor. Soybeans grading sample because of having an odor due to green damage or being sour due to green damage shall be purchased at rates for such soybeans had such odors not been present.

§ 257.73 Out-of-condition soybeans. Soybeans which are weevily, grade sour (other than because of green damage), musty, heating, or which have a "commercially objectionable foreign odor" shall be subject to such discounts as may be agreed upon at the time of purchase.

§ 257.74 Foreign material and dockage. Dockage and foreign material other than dockage, which, singly or in combination, total 2 percent or less, shall not be deducted from the gross weight of the soybeans. Therefore, a net bushel shall be considered to be 60 pounds of soybeans containing not in excess of 2 percent dockage and foreign material. If the total weight of foreign material and dockage combined is in excess of 2 percent, the excess shall be deducted from the total gross weight of soybeans in the determination of the net number of bushels of soybeans. For the purpose of this determination, dockage shall be computed in whole percents. Less than 1.0 percent actual dockage and fractional percentages shall be disregarded. Foreign material percentages shall be stated in

\$257.75 Method of receiving soybeans.

(a) Country warehousemen may receive soybeans for immediate shipment to processors, terminal warehousemen having contracts with Commodity, or for storage in the elevator or Commodity bins. In order to receive soybeans for Commodity, a country warehouseman must have executed Uniform Grain Storage Agreement (C. C. C. Form H) and supplements thereto. Approval by the county committee must be obtained before any soybeans are placed in Commodity bins.

(b) County agricultural conservation committees may receive soybeans for storage in bins owned by Commodity, storage in other facilities, or for shipment. No car shall be loaded without prior approval from the regional director.

§ 257.76 Soybeans received by country warehouses approved under the Uniform Grain Storage Agreement. The country warehouseman shall receive soybeans delivered by wagon or truck from the producer, grade the soybeans and store them in his warehouse, or in Commodity bins, upon prior approval of, and under supervision of, the county committee; or shall receive and grade the soybeans for sale to processors or to terminal warehousemen who have contracts with Commodity. Producers shall file an Offer of Sale memorandum (C. C. C. Purchase Form B) with the county committee listing all lienholders and containing lien waivers, and shall designate to whom the proceeds of the soybeans sold shall be paid in the case of soybeans sold to Com-

(a) Storage in warehouse for Commodity. The warehouseman shall issue separate warehouse receipts for each lot of soybeans stored for Commodity showing the weight, moisture, class and grade, and all other information necessary to determine the premiums and discounts specified in §§ 257.70, 257.71, and 257.74. The warehouseman shall deliver to the producer said warehouse receipt and inspection certificates or, upon request of the producer, the warehouseman shall deliver such warehouse receipt and inspection certificates to the county office of the Agricultural Adjustment Agency. The county committee of the Agricultural Adjustment Agency shall issue the producer a non-interest-bearing sight draft for each purchase. The information on the warehouse receipt or inspection certificate shall be transferred to the sight draft. The sight draft shall be prepared in triplicate, the original given to the producer, one copy retained by the county committee of the Agricultural Adjustment Agency, and one copy mailed, on the date of issuance, to the regional office of Commodity. The sight draft and attachments may be presented to a local bank or direct to Commodity for payment. Charges shall accrue against the warehouse receipts in accordance with the Uniform Grain Storage Agreement, except that the charge for handling the soybeans in and out of the warehouse shall be 5 cents per bushel. The warehouseman shall be responsible for weights and grades to Commodity.

(b) Storage in bins owned by Commodity. Eligible soybeans containing not more than 14 percent moisture, and eligible soybeans grading sample (due to green damage only) and containing not more than 14 percent moisture and reasonably free from dockage and foreign material, may be stored in bins owned by Commodity upon prior approval by the county committee. All soybeans stored in Commodity bins must be placed in the bins under the direct supervision of the committee. Soybeans to be stored in steel or wooden bins for Commodity should be segregated according to color, except that soybeans of Classes I and II which contain a total of less than 5 percent of Classes III and IV may be considered as the same color. If necessary, soybeans of the same color but different grades may be mixed. The warehouseman shall issue scale tickets and inspection certificates showing moisture, class, and grade for soybeans grading other than sample (due to green damage only). For eligible soybeans grading sample, the warehouseman shall issue scale tickets or inspection certificates showing moisture, class, grade, and percent of damage, and deliver such tickets and inspection certificates to the producer or, upon request from the producer deliver such scale tickets and inspection certificates to the county office of the Agricultural Adjustment Agency. The county committee shall issue the producer a noninterest-bearing sight draft for each purchase in an amount due the producer for the quantity, quality, class, and grade of soybeans delivered. The information on the scale tickets or inspection certificates shall be transferred to the sight draft.

§ 257.77 Soybeans received by county committees. In areas where there are no approved warehousemen, country warehousemen, or warehousemen's agents available at usual shipping points, or, where warehousemen do not cooperate in the purchase program, the county committee, or an agent designated by the county committee, will receive soybeans and make immediate shipment or store in Commodity bins.

Soybeans containing in excess of 14 percent moisture shall not be stored in bins owned by Commodity. However, producers may, by filing C. C. C. Purchase Form B with the county commit-

tee, deliver their soybeans for purchase to a point designated by the county committee, without first obtaining a grade determination, provided the soybeans do not have a moisture content in excess of 14 percent in the opinion of the producer and the county committee.

In the event the producer is requested by the county committee to deliver his soybeans to a point more distant than his usual delivery point for the purpose of assembling in carload lots, Commodity will allow not more than 5 cents per ton per mile haul for the additional distance necessary to make such delivery. In no event shall the county committee approve payments for an additional haul in excess of 4 cents per bushel without prior approval of the regional director of Commodity. The approval of payment for additional mileage shall be submitted on C. C. C. Grain Form J (Revised) by the county committee, which shall be mailed to the Chicago office of Commodity for payment. The amount claimed for additional mileage shall not be included in the amount of the sight draft.

County committees will weigh and load soybeans into bins owned by Commodity and will obtain a representative sample which shall be forwarded to the State office of the Agricultural Adjustment Agency or to an inspector licensed to grade soybeans. Upon receipt of the grade analysis, which shall include an entry for all grade factors needed to determine purchase price, the county committee shall draw a non-interest-bearing sight draft on Commodity in favor of the producer, for the total purchase price of the beans delivered in the same manner, and follow the same instructions as when the soybeans are placed in bins by the warehouseman.

§ 257.78 Grade analysis. Where requested by the producer, the warehouseman shall furnish the producer a complete grade analysis which shall include class, grade, test weight, moisture, percentage of splits, percentage of total damage, percentage of green damage, percentage of foreign material other than dockage, percentage of brown and/or black soybeans in case green or yellow soybeans are being offered for sale, and percent of dockage.

If the warehouse is not equipped to furnish all grade factors, a representative sample of the soybeans delivered shall be taken by the warehouseman and producer and sent to the State Agricultural Conservation Office Laboratory, or to an inspector licensed to grade soybeans, for grade determination before any payment is made to the producer.

All settlements with the producer by the county committee of the Agricultural Adjustment Agency shall be based upon an agreement between the warehouseman and producer of grade factors determined.

The producer may call for another grade if, in his opinion, any grade factors furnished by the warehouseman are incorrect. In such cases, a representative sample taken by the warehouseman and producer shall be forwarded to a qualified licensed inspector for analysis, and settlement shall then be made on the basis of such analysis. The individual requesting the second grade shall pay the cost of obtaining grade determination.

Chapter I-Bureau of Internal Revenue

[T. D. 5477]

PART 186-GAUGING MANUAL WINE AND PROOF GALLON CONTENTS

Pursuant to the provisions of sections 2808 and 3176, Internal Revenue Code, the Gauging Manual, approved November 21, 1938, (26 CFR, Part 186), is hereby amended as follows:

Section 186.13 (a) is amended to read as follows:

§ 186.13 Wine and proof gallon contents. (a) The proof of alcohol in receiving cisterns of industrial alcohol plants and the proof of spirits in cisterns of distilleries shall be adjusted to a whole or complete degree of proof before being removed therefrom: Provided. That the proof of alcohol transferred by pipe line from receiving cisterns of industrial alcohol plants to industrial alcohol bonded warehouses or denaturing plants, and the proof of spirits transferred by pipe line from cistern rooms of fruit distilleries to fortifying rooms of bonded wineries need not be so adjusted. The proof of alcohol or other spirits at industrial alcohol bonded warehouses, bottling-in-bond departments of internal revenue bonded warehouses, rectifying plants, and tax-paid bottling houses shall be adjusted to a whole degree of proof preparatory to filling containers such as tank cars, barrels, drums, or bottles. Adjusting the proof to tenths of a degree, either above or below the whole or complete degree, will not be permitted: Provided, That when tax-paid spirits at rectifying plants and tax-paid bottling houses and untax-paid spirits for bottling in bond for export at bottling-inbond departments of internal revenue bonded warehouses are being prepared for bottling and are to be bottled and labeled in tenths of a degree of proof, such as 86.6, the proof of the spirits shall be adjusted to such tenths of a degree of proof. The restoration to the original proof and volume of rectified spirits upon which the rectification tax has been paid, by the addition of water, preparatory to bottling, shall not be deemed to reduction in proof or an increase in volume

within the meaning of section 2801 (b) of the Internal Revenue Code.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, as Amended Sept. 17, 1945]

INVENTORIES

(a) What this regulation does.

General Restrictions

(b) Restriction on delivery.

(c) Restrictions on receipts.

(d) Restriction on ordering more than needed.

(e) Adjusting outstanding orders when requirements change.

(f) Restriction on processing.

Exceptions

(g) In general.

(h) Receipts permitted after contract cancellations or cut-backs.

Miscellaneous Provisions

(i) Previous inventory authorizations.

(j) Separate inventories,

(k) Redistribution of excess inventories.

(1) Violations.

(m) Revisions of tables.

(n) Appeals, letters and questions.

§ 944.53 Priorities Regulation 32—(a) What this regulation does. This regulation contains the inventory rules formerly in § 944.14 of Priorities Regulation 1 and in CMP Regulation 2. Its purpose is to prevent excessive inventories by restricting ordering, deliveries, receipts and processing of materials in short supply. All kinds of materials are covered including raw or semi-fabricated materials, commodities, equipment, accessories, parts, assemblies or products of any kind, whether or not acquired with priorities assistance.

The general rule on receipts is in paragraph (c) (1), and this is controlling unless a more specific limitation or exception is indicated in Table 1 or 2 or a direction to this regulation, or unless Table 3 (formerly Order M-161) exempts the material entirely. Other exceptions to the inventory limitations are stated in paragraphs (g) and (h) and in directions

to this regulation.

General Restrictions

(b) Restriction on delivery. No person may deliver any material if he knows or has reason to believe that acceptance of the delivery would be in violation of this regulation.

Note: For rule on making or delivering material earlier than required by customers, see Interpretation 3.

(c) Restrictions on receipts—(1) General rule. A person may not accept delivery of any material if his inventory of that material is, or will be, more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or scheduled method and rate of operation.

Note: For rule on when material is considered to be in inventory, see Interpretation 4; for rule as to seasonal industries, see Interpretation 1.

(2) Special rules in Tables 1 and 2. If Table 1 at the end of this regulation shows a special inventory limit on a particular material or product (either specifically or by reference to another WPB order or regulation), that limitation governs and the restrictions of paragraph (c) (1) above may be disregarded unless the applicable order or regulation (or a note in Table 1) also states that a practicable minimum working inventory may not be exceeded. The same is true with respect to particular classes of persons shown on Table 2. Where a specific period of time is shown on Table 1 or 2, no person affected may accept delivery of any material specified if his inventory of it is, or will be, more than he needs during the immediate period specified on the basis of his current or scheduled method and rate of operation. Even if an order or regulation is not listed on Table 1 or 2, any specific inventory limits imposed by it must be complied with. If an order or regulation listed on Table 1 or 2 is revoked or a listing removed from the tables all provisions of this regulation, including paragraph (c) (1), are automatically applicable.

(3) Special rules on steel and copper in controlled material form. The former inventory rules in CMP Regulation 2 on steel and copper in controlled material form (as defined in CMP Regulation 1) are now in Table 1 of this regulation. and the following special rules are applicable to deliveries to users of such steel and copper: (i) Where steel and copper are involved, the provisions of this regulation apply separately to each "item" in any class listed in Table 1 which is different from all other items in that class by reason of one or more of its specifications, such as length, width, thickness, temper, alloy, finish, method of manufacture, etc. (ii) If any producer of steel or copper exercises his privilege under CMP Regulation 1 of making delivery before the delivery date specified by his customer, the delivery may be accepted and the limits of this paragraph (c) exceeded to the extent that the excess results from the early delivery. (iii) The limits in Table 1 on receipts of steel and copper in terms of specific days' requirements apply only within the 48 States and the District of Columbia. Other special rules on steel and copper are explained in Table 1.

(d) Restriction on ordering more than needed. (1) A person may not place any order, whether rated or unrated, for delivery of any material on earlier dates or in larger amounts than he would be permitted to receive under this regulation. Orders aggregating more than he is allowed to receive may not be placed with

different suppliers even though he intends to cancel one or more of them before delivery. However, this restriction does not apply to materials listed on Table 3 of this regulation nor to purchases by ultimate consumers for personal or household use. The restriction does not forbid the placing of orders for delivery under the conditions explained in Interpretation 11 to Priorities Regulation 1, but such orders may not be scheduled for production as long as this restriction is effective.

(2) This restriction does not require adjustment of orders placed before August 28, 1945. However, in view of its policy to prevent hoarding and speculative buying of materials in short supply, the WPB may direct adjustments or cancellations in individual cases where orders are in excess of reasonably anticipated needs especially where failure to do so might result in unbalanced distribution and curtail total production.

(3) If the inventory limits applying to any material are made more restrictive, whether by a change in Table 1 or otherwise, any person affected must immediately cancel, reduce or defer any order for the material to the extent that the scheduled delivery would result in an inventory greater than permitted by the new restriction and other applicable provisions of this regulation.

(e) Adjusting outstanding orders when requirements change. If because of a change in operations, slowing or stoppage of production, delayed delivery by a supplier, or any other change in requirements, a person who has ordered material for future delivery would, if he accepted delivery on the date specified, exceed the limits prescribed by this regulation, he must promptly adjust his outstanding orders, and, if necessary, postpone or cancel them. Paragraph (h) below describes what further deliveries may be accepted.

(f) Restriction on processing. No person may process, fabricate, alloy or otherwise alter the shape or form of any material if his inventory of the material in its processed, fabricated, alloyed or otherwise altered shape or form is, or will be, more than a practicable minimum working inventory. However, this does not restrict a person from altering the form of surplus materials by scrapping or reprocessing them, unless a WPB order specifically says otherwise.

Exceptions

(g) In general. This paragraph, paragraph (h) below, and certain directions to this regulation state general exceptions to the restrictions on acceptance of delivery described in paragraph (c) above, and to all other inventory restrictions on delivery and acceptance of delivery in WPB orders and regulations unless they contain specific provisions to the contrary. None of these or any other exceptions to WPB inventory restrictions on receipts permit a supplier to disregard any applicable WPB order or regulation which restricts production or delivery.

(1) Exemption of Table 3 materials. Materials listed on Table 3 at the end of this regulation may be delivered and

accepted without regard to WPB inventory restrictions.

(2) Materials bought under PR-13. Priorities Regulation 13 provides a limited exemption from inventory restrictions in the case of items bought on special sales.

(3) Imported materials. A person may import any material without regard to WPB inventory restrictions, but if his inventory of it thereby becomes in excess of the amount permitted by this regulation, he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this regulation do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him may receive.

(4) Advance stockpiling for civilian production. A person may receive in anticipation of starting or resuming civilian production the minimum amount of material he would need during the first 30 days of such production, provided no priorities assistance is used to get the material. Records of such receipts and the basis on which they were computed must be preserved as required by § 944.15 of Priorities Regulation 1. This 30-day amount is a ceiling as far as advance stockpiling is concerned, and may not be considered as a "bonus" to be added to the amount of any material which a producer expects to have available for making his civilian product. Changes in this 30-day amount may be indicated for a particular material by a note in Table 1

(5) Minimum sale quantities. Minimum sale quantities and production runs may be accepted to the extent permitted by Interpretation 2 to this Regulation. However, where Column 3 of Table 1 shows a specific amount of a particular material, that is considered to be the minimum sale quantity of it. Thus, if a person would be permitted under paragraph (c) to accept less than the amount shown, he may accept delivery of the full amount. In any event, after receiving a minimum sale quantity of any material, a person may not accept delivery of any additional quantities until his inventory of it is within applicable limits.

(6) Small inventory exemption for particular materials. If a note in Table 1 or 2 shows a specific amount of a particular material as a small inventory exemption, a person may accept delivery of any quantities of it as long as his total inventory of it after acceptance is no more than the specified amount.

(h) Receipts permitted after contract cancellations or cut backs. Where a person has promptly cancelled or cut back a contract with his supplier as required by paragraph (e) and the supplier is not otherwise prohibited from producing or delivering any material involved, delivery of it may be accepted and the inventory restrictions of paragraph (c) exceeded to the following extent only:

 Delivery may be accepted if the supplier has shipped the material or loaded it for shipment before the receipt of the instruction to cancel or cut back;

(2) Delivery may be accepted of any special item which the supplier actually has in stock or in production or special components or special materials which he has acquired for the purpose of filling that contract. A special item, as used above, means one that the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others; or

(3) Even if the material is not a special item, delivery may be accepted from a producer if it has already been produced or is in production before receipt of the instruction to cancel or cut back, and it cannot be used to fill other orders on the producer's books.

Note: For special rules on continuing receipts of special items after contract cut backs, see Direction 3 to this regulation; and as to transfers of idle materials after cancellations or cut backs, see Direction 1. For effect of reduction in consumption rate on permitted inventories, see Interpretation 5,

Miscellaneous Provisions

(i) Previous inventory authorizations. Any specific authorizations, exceptions, or grants of appeals issued under § 944.14 of Priorities Regulation 1 or CMP Regulation 2 remain in effect according to their terms unless individually modified or revoked.

(j) Separate inventories. (1) In figuring his inventory, a person must include all material in his possession and all material held for his account by another person, but not material held by him for the account of another person.

(2) In the case of a person who on August 28, 1945, has more than one operating unit and keeps separate inventory records for them, this regulation applies to each such operating unit or division independently. A person may not make any further separation or consolidation of such operating units without special written approval of the War Production Board, unless it is purely incidental to a separation or consolidation which is made primarily for other than inventory purposes.

(k) Redistribution of excess inventories. Excess inventories of materials and products, including inventories of materials which are in such form as to be unusable by the holder, are subject to redistribution to other persons by voluntary action pursuant to Priorities Regulation 13, or if necessary for national defense, through requisitioning by the War Production Board.

(1) Violations. Any person who wilfully violates any provision of this regulation, or who, in connection with this regulation, wilfully conceals a material fact, or furnishes false information to

any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) Revisions of tables. Tables 1, 2 and 3, attached to this regulation will be revised from time to time. As materials and products become in more ample supply, it is expected that they will be listed on Table 3. In special cases, particular materials or products may also be removed from Table 3 or added to Table 1. It is, therefore, important to be familiar with the latest revision of the tables.

(n) Appeals, letters and questions. Any appeal or other question regarding any provision of this regulation should be sent by letter in duplicate to the Office of Inventory Control and Surplus Utilization, War Production Board, Washington 25, D. C., Ref.: PR 32, unless Table 1 or 2 attached to this regulation indicates otherwise with respect to particular materials or classes of persons.

Issued this 17th day of September 1945.

Table 1—Materials and Products Subject to Specific Inventory Provisions

Note: Table 1 amended Sept. 17, 1945.

Explanation. Materials or products listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation, except to the extent that different rules may apply as to certain classes of persons under Table 2.

Column 2 shows either the WPB order or regulation which controls inventories of the material, or if no order is specified, there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

A figure in Column 3 shows the minimum sale quantity, that is, the amount of the particular material which a person may receive under the conditions stated in paragraph (g) (5), even if it is more than allowed under Column 2. If no figure is shown, the rule in Interpretation 2 must be followed.

Column 4 tells the Division or Office in the War Production Board to which should be sent any appeals or questions regarding the limitations described. However, if the applicable order says appeals are to be filed somewhere else, such as the nearest WPB field office, that provision controls.

Column 5 (Remarks) gives explanations, exemptions or other special rules applicable to the particular material or limitation.

INTERPRETATION 1

INVENTORIES IN SEASONAL INDUSTRIES

Paragraph (c) (1) of Priorities Regulation 32 prohibits any person from accepting a delivery which will give him "more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or scheduled method and rate of operation". This does not prevent a person engaged in a seasonal industry who normally stocks up inventory in advance of the season from accepting delivery of his requirements of the inventory in question, provided (a) that he is not guilty of hoarding, and (b) that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated requirements. (Issued Aug. 28, 1945.)

INTERPRETATION 2

MINIMUM SALE QUANTITIES AND PRODUCTION

(a) Applicable provisions of the regula-ons. Priorities Regulation 32 forbids the making or acceptance of a delivery which will give the customer more than the "practicable minimum working inventory reasonably necessary" for him to make his own deliveries. A similar provision in paragraph (c) (2) of Priorities Regulation No. 3 says that a customer who is applying a rating for which no specific quantities have been authorized may use it only to get the "minimum amount needed."

(b) Factors to be considered in determining how much can be ordered and delivered. In determining a customer's minimum inventory "reasonably necessary" under Priorities Regulation 32 or his "minimum amount needed" under Priorities Regulation No. 3, it is proper in some cases to consider not only the immediate needs of the customer's plant but also whether the amount which he orders will be a minimum produc-tion run for his supplier. The customer may order and receive (and the supplier may deliver) the customer's requirements for a longer period in advance than he actually needs at the time of delivery if, but only if, it is not practicable for him to get the item from any supplier in the smaller quantities which he presently needs. The supplier may reject his customer's order if it is less than the minimum which he regularly sells or less than his minimum production run of a

product which is mass produced under the conditions explained in Interpretation 3 of Priorities Regulation 1.

(c) Relief in exceptional cases. If the conditions stated in paragraph (b) above cannot be satisfied but the customer wants to order or accept delivery of more than his actual needs at the time of delivery, he should apply to the War Production Board for permission, stating the facts and why it is not practicable to satisfy the condition

of paragraph (b),
(d) Special provisions for controlled materials and Class A products. This interpretation does not apply to deliveries of con-trolled materials under the Controlled Ma-terials Plan. Rules regarding deliveries of controlled materials are given in Tables 1 and 3 of Priorities Regulation 32, and additional rules for Class A products are explained in Interpretation 9 to CMP Regulation No. 1.

(e) Specific limits on ratings may not be exceeded. This interpretation does not apply to the use of a rating where a specific quantity is stated in the instrument assigning the rating. If a person is assigned a rating for a specific amount of material, he may not use it to get more. If he finds that he can only get the material in larger quantities, he should apply for a modification of the rating.

(f) No effect on contractual rights. The times and amounts in which deliveries are to be made are to be determined by agreement between the supplier and the customer. Nothing in this interpretation relieves a supplier from fulfilling a contract to make deliveries at specified times in specified amounts. For example, if a customer has agreed to buy and a supplier has agreed to furnish 100 units a month for six months, this interpretation does not obligate the buyer to accept 600 units delivered during the first month, although it permits him to do so under the conditions described in paragraph (b). (Issued Aug. 28, 1945)

INTERPRETATION 3

MAKING OR DELIVERING MATERIAL EARLIER THAN REQUIRED BY CUSTOMERS

(a) Paragraph (b) of Priorities Regula-tion 32 prohibits a person from knowingly making a delivery which will give his customer more than the latter is permitted to receive under the regulation. Paragraph (f) of that regulation prohibits a person from processing or fabricating material if his inventory of the material in its processed or fabricated form will be more than a practicable minimum working inventory. These two restrictions should be borne in mind by any supplier who wants to make or deliver any material to his customer earlier or in greater quantities than required by the cus-

(b) For example: A supplier has accepted his customer's order of a product to be de-livered at the rate of 100 a month for six months. The supplier would like to ship 200 a month for three months, or perhaps the entire 600 in the first month. Since the cus-tomer's requirements of 100 a month are presumably all he could accept within the inventory limitations of paragraph (c) of the regulation, the requirement that the supplier may not knowingly ship more than this would prevent him from delivering earlier than required by his customer, unless he received notice from his customer that the receipt of the larger amount would not cause him to have an excess inventory.

(c) Thus, before delivering a material or product substantially earlier or in greater quantities than is called for by his customer's order, a supplier is required to satisfy himself that the receipt by the customer of the changed quantities will be within the permissible inventory limitations applicable to the customer. The supplier may rely on any statement or notice to this effect from his customer, unless he knows or has reason to know that it is false.

(d) Similarly, assuming his customer would not be permitted to receive the larger quantities, the supplier should take this into account in his plans for processing the material or product so that he himself will not have an inventory greater than permitted by para-

graph (f) of the regulation.
(e) This interpretation, of course, does not change the rule on delivery or acceptance of minimum sale quantities or production runs to the extent described in Interpretation 2 to this regulation, nor does it prevent earlier delivery of controlled materials under the conditions explained in paragraph (t) (4) of CMP Regulation 1 and Interpretation 33 to that regulation. Also, if any WPB order or regulation permits increased deliveries to the extent necessary to avoid shipping partly filled containers (such as paragraph (y) (4) of Order M-300), the rule in this interpretation does not prevent such deliveries. (Issued Aug. 28, 1945)

INTERPRETATION 4

INVENTORY MATERIAL

(a) Paragraph (c) of Priorities Regulation32 prohibits a person from accepting delivery of material if his inventory of it is, or will be, greater than the maximum prescribed. For the purpose of this regulation, material is considered to be inventory until it is actually put into process or is actually installed or assembled. Putting into process does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming or other operation unless such initial operations are part of a continuous fabricating or assembling operation. Nor does it include operations such as inspection, testing and ageing nor segregation or earmarking for a specific job or operation.

(b) For example, if a manufacturer who

uses wire or rod cuts a sufficient quantity of it to length at one time to maintain his operations for a considerable period of time, the cut pieces remain as inventory until proc-essed into another form or until assembled

or installed.

(c) If a manufacturer purchases and stores steel castings in the form purchased, the steel castings are not put into process when the castings are painted and stored. Consequently, the inventory of castings includes those painted and stored.

(d) If a manufacturer shears steel sheet and stocks in sheared form, such stock is still part of his inventory, if the material does not continue in production. (Issued Aug. 28,

INTERPRETATION 5

EFFECT OF REDUCTION IN CONSUMPTION RATE ON PERMITTED INVENTORIES

(a) Paragraph (c) of Priorities Regulation 32 prohibits the acceptance of delivery of material if a person's inventory of it is, or will be, more than the amount permitted by the regulation. If material is acquired within these restrictions, the regulation does not prohibit the mere possession of an in-ventory if a change in circumstances makes it greater than the amount permitted. instance, if based upon current rate of production a manufacturer's permitted inven-tory of one item of steel is 100 tons and he has in inventory 60 tons, he may receive a further delivery of 40 tons. If after receiving the delivery of 40 tons his rate of consumption, because of contract cancellation or the like, is reduced drastically, the mere fact that he has an inventory of 100 tons, although his permitted inventory mays be only 10 tons, is not a violation of the regulation. He may not, of course, accept any further deliveries of that item of steel until his inventory has been reduced below 10 tons (except as provided in paragraph (h) of Priorities Regulation 32 and Direction 3 to that regulation, relating to material already shipped, special items, etc.)

(b) Similarly, the regulation does not affect the liability of a customer for material in inventory when the customer cancels his contract. Such liability is controlled by the provisions of the contract between the customer and his supplier and by contract law. (Issued Aug. 28, 1945)

PART 1010-SUSPENSION ORDERS

[Suspension Order S-773, Reinstatement and Amdt.]

R. L. FAUBION CO.

R. L. Faubion, doing business as R. L. Faubion Company, at 2519 Southwest Boulevard, Kansas City, Missouri, engaged in the manufacture or repair of steel tanks, compressors, automotive lubricating equipment, gasoline pumps and similar items was suspended on May 10, 1945, by Suspension Order No. S-773. He appealed from the suspension order and, pending determination of the appeal, the suspension order was stayed by the Chief Compliance Commissioner on May 12, 1945. The appeal has been considered by Deputy Chief Compliance Commissioner Flood who has dismissed the appeal and directed that the stay be terminated and the suspension order reinstated.

In view of the foregoing, it is hereby ordered, that: § 1010.773 Suspension Order No. S-773 issued April 30, 1945, and effective May 10, 1945, be and hereby is reinstated effective September 20, 1945, to expire January 18, 1946, the stay of execution directed by the Chief Compliance Commissioner on May 12, 1945, be and hereby is revoked effective September 19, 1945; and that the suspension order be modified by deleting paragraph (a) therefrom.

Issued this 10th day of September 1945.

PART 1010-SUSPENSION ORDERS [Suspension Order S-902]

C: O. AUSTIN

C. O. Austin operates a saw mill at Gig Harbor, Washington. Between January 5, 1945 and June 23, 1945, he produced in his saw mill and sold 249,486 board feet of lumber, consisting principally of Douglas fir and of small quantities of Western hemlock, Western pine and cedar. All such lumber produced was graded No. 2, or better. 193,536 board feet of this lumber was sold by C. O. Austin on uncertified, unrated and unauthorized orders in violation of Limitation Order L-335. From August 1, 1944 to June 23, 1945, C. O. Austin failed to keep and preserve accurate and complete records of his production, inventory and sale of lumber, in violation of Priorities Regulation No. 1, C. O. Austin was familiar with Limitation Order L-335 and Priorities Regulation No. 1 and his actions consituted grossly negligent violations thereof.

These violations have diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.902 Suspension Order No. S-902. (a) C. O. Austin, his successors or assigns, shall not sell or deliver any lumber to customers unless and until he establishes and keeps his business rec-ords in conformity with § 944.15 of Priorities Regulation No. 1, as amended.

(b) Nothing contained in this order shall be deemed to relieve C. O. Austin, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same way be inconsistent with the provisions hereof.

(c) This order shall take effect on September 20, 1945, and shall expire De-

cember 1, 1945.

> PART 1010-SUSPENSION ORDERS [Suspension Order S-903]

COPELAND LUMBER CO. AND I. C. BRAITHWAITE

The Copeland Lumber Company is a corporation engaged in the retail lumber business in the states of Washington, Oregon and California. It has seven branch lumber yards in the state of Washington, of which one is located at Olympia, and is managed by I. C. Braithwaite. During the period from April 4, to November 24, 1944 the Olympia yard of Copeland Lumber Company supplied new lumber and building materials of the value of \$1603.54 for the construction of a residence which it knew or should have known was being carried on without authorization from the War Production Board and in violation of Conservation Order L-41. The furnishing of these building materials without ascertaining whether or not the construction was authorized by the War Production Board constituted a wilful violation of Conservation Order L-41.

Such violation has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.903 Suspension Order No. S-903. (a) Neither the Olympia yard of the Copeland Lumber Company nor I. C. Braithwaite shall for four months from the effective date of this order apply or extend any preference ratings or use any CMP allotment symbols, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended or on which CMP allotment symbols are used.

(b) Nothing contained in this order shall be deemed to relieve the Olympia yard of the Copeland Lumber Company and I. C. Braithwaite from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to the Olympia yard of the Copeland Lumber Company and I. C. Braithwaite, their successors and assigns, or persons acting on their behalf. Prohibitions against the taking of any action include the taking directly as well as indirectly of any such action.

(d) This order shall take effect on September 20, 1945.

Issued this 10th day of September 1945.

PART 3290-TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-217, as Amended Sept. 20, 1945]

FOOTWEAR

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of shoe manufacturing material for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.191 Conservation Order M-217—(a) Applicability of priorities regulations. This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board and Conservation Order M-328, as amended from time to time, except as follows:

(1) Priorities Regulation 17 shall be inapplicable to footwear.

(2) Military footwear which has been rejected by Government inspectors and stamped to indicate its rejection may be sold without regard to Paragraph 944.11 of Priorities Regulation 1 or paragraph (e) (3) of Conservation Order M-328.

(b) Definitions. For the purposes of

this order:

(1) "Footwear" includes house slippers, but does not include (i) rubber footwear or (ii) foot covering designed to be worn over shoes and utilizing no leather

(2) "Work shoes" means any shoes or boots with unlined quarters which are designed to be worn at any form of work requiring specially heavy or substantially made footwear.

(3) "House slippers" means any foot-wear designed exclusively for indoor or

house wear.
(4) "Line" means footwear of any one of the following types:

Men's dress Men's work Youths' and boys' Women's and growing girls' Misses' and children's Infants' House slippers

Athletic Men's safety shoes, and Women's safety shoes

to the extent that such type of footwear is manufactured for sale by the manufacturer in a price range where the highest list price does not exceed the lowest by more than 10% or 25¢ a pair (whichever is greater): Provided, That:

(i) Footwear of identical kind and quality sold at different prices to different types of purchasers may be included in one line if the highest price in the range is an actual price at which this footwear was sold during the base period, and the concession price for the same footwear is not more than 15% below the highest price in the range.

(ii) In case the sale by the manufacturer is at retail or to a purchaser which controls, is controlled by, or is subject to common control with, the manufacturer, then the applicable price range shall be the retail price range.

(iii) Up to and including the net wholesale price shown on the following schedule, each type of footwear listed may be deemed one line:

Maximum net wholesale price per pair Type: Misses' and children's_. \$1.75 Youths' and boys' (without leather) _ Youths' and boys' (utilizing leather) Women's and growing girls' (including safety) (without leather) 1.90 Women's and growing girls' (including safety) (utilizing leather) ____ Men's work, dress and safety (with-2.50 out leather) ____ Men's work, dress and safety (utilizing leather) ___ House slippers (with or without leather) Infants', sizes 0-4 (utilizing leather) _ .90 Infants', sizes 0-4 (made without . 75

NOTE: For the purposes of this schedule, footwear utilizing no leather except for heel top lifts shall be considered as having been made without leather.

Infants', sizes 41/2 to 8 (with or with-

out leather) ___

(iv) Nothing in this order shall be deemed to permit overlapping price lines.

(5) "Military footwear" means military type footwear purchased by the Army or Navy of the United States (excluding post exchanges and ship's service stores, wherever situated), the United States Naval Academy at Annapolis, Maryland, the United States Military Academy at West Point, New York, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development the War Shipping Administration, the Government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, the Netherlands, Norway, Poland, Russia, Turkey, the United Kingdom (including its Dominions, Crown Colonies and Protectorates) and Yugoslavia; military type footwear purchased by any agency of the United States for delivery to or for the account of the Government of any country listed above, or any other country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act); and custommade footwear delivered for personnel of the Army or Navy of the United States.

(6) "Civilian footwear" as used in paragraph (f) includes all footwear except military footwear and rubber foot-

(7) "Six months' base period" means any consecutive six calendar months within the period from July 1, 1942 through April 30, 1943 selected by a manufacturer as his base period for the purposes of this order.

(8) "Civilian line quota" means the number of pairs of civilian footwear within a single line manufactured by a person during his six months' base period, as set forth on his base period report.

(9) "Safety shoes" means protective occupational footwear incorporating or purporting to incorporate one or more of the following safety features: steel box toe; electrical conductivity; electrical resistance; non-sparking and moulders' (Congress type) protection (shoes which can be quickly removed, worn to protect against splashing metals).

(c) Restrictions on attaching outsoles. No person shall attach to any footwear (except infants' footwear, house slippers or women's gold or silver evening slippers) outsoles, other than wooden soles, not conforming to the specifications contained in Schedule I annexed to this order.

(d) General exceptions. None of the restrictions of this order shall apply to military footwear, or to footwear made as trials or pullovers but not sold.

(e) Restrictions relating to sales and deliveries. (1) No person shall sell or deliver any new footwear manufactured in the United States of America in violation of this order.

(2) No tanner or sole cutter shall deliver any leather to any shoe manufacturer if he knows or has reason to believe said leather is to be used in violation of the terms of this order.

(3) The prohibitions and restrictions of this paragraph shall not apply to:

(i) Deliveries of footwear or leather by or to, any person having temporary custody thereof for the sole purpose of transportation or public warehousing.

(ii) Any bank, banker, or trust company affecting or participating in a sale or delivery of footwear or leather solely by reason of the presentation, collection, or redemption of an instrument, whether

negotiable or otherwise.

(4) In making sales or delivery of any footwear, no person shall make discriminatory cuts in quantity or quality between customers who meet such person's regularly established prices, terms and credit requirements, or between customers and his own consumption of said footwear. Reduction in sales or deliveries proportionate with any curtailment in supply available for nonmilitary use shall not constitute a discriminatory cut.

(f) Restrictions on production of lines of footwear. (1) No person shall, during the four month period beginning September 1, 1945, or in any subsequent four month period, complete the manufacture of more civilian footwear within any line than the percentage of his civilian line quota for such line shown on the following schedule:

Each	line of youths' and boys' shoes	100
Each	line of men's safety shoes	100
Each	line of men's work shoes	100
Each	line of men's dress shoes	80
Each	line of women's and growing girls'	

shoes	80
Each line of house slippers	80
Each line of athletic shoes	03
Each line of wome's safety shoes	80

With respect to (i) infants' footwear and (ii) misses' and children's footwear, no manufacturer may exceed 100% of his aggregate civilian line quotas for all lines of infants' footwear, and no manufacturer may exceed 100% of his aggregate civilian line quotas for all lines of misses' and children's footwear, but his production within each of these two types of footwear may be distributed among his established lines in any manner desired, except that the production in any line consisting of less than 50 pairs or 2% of the total production of that type of footwear (whichever is greater) during the base period may not be increased by more than 25%:

Provided, however, That to the extent that a manufacturer's production of military footwear shows a decrease below that during his six months' base period, his production within any line of civilian footwear may exceed the civilian line quota for such line by its proportionate part of such decrease; and to the extent that such manufacturer's production of military footwear shows an increase over that during the six months' base period, each civilian line quota of such manufacturer shall be diminished by its proportionate part of such increase.

(2) No person shall manufacture any line of footwear (except military footwear) not manufactured by him in his six months' base period.

(3) Exceptions to paragraphs (f) (1) and (f) (2). (i) A lower priced line of the same type of civilian footwear may be substituted in whole or in part for a higher priced line.

(ii) The unused quota of any higher priced line may be added to the quota of a lower priced line of the same type of civilian footwear.

Any person may add 100% of the unused portion of his civilian line quota or quotas of men's dress and women's and growing girls' shoes to his quotas of the types shown below:

Type:

Type:
Men's work shoes
Youths' and boys' shoes
Misses' and children's shoes
Infants' shoes

In no event shall any unused quota be added to a higher priced line.

(iii) A person may exceed his civilian line quota for any line of women's safety shoes if a pairage equal to such excess is deducted from some other line or lines of footwear.

(iv) During the four month period beginning September 1, 1945, or in any subsequent four month period a manufacturer whose total production for the period will be less than \$200,000 (based on wholesale value) is not subject to paragraph (f) (1), provided that no new higher priced lines are added and provided the manufacturer does not exceed his aggregate production in pairs during his six months' base period by more than 40%. The exemption in this paragraph shall not apply to a manufacturer affiliated, as a subsidiary or otherwise with another or others. This paragraph shall not authorize any manufacturer to increase his production by more than 40% in any line consisting of less than 50 pairs or 2% of his total production of that type of footwear (whichever is greater) during the base period.

(v) Paragraphs (f) (1) and (f) (2) shall not apply to footwear for the physically maimed or deformed on a custom-made basis and not for stock, to wood sole closs utilizing no leather, to shearling or fur house slippers utilizing no other leather (except for outsoles), or to footwear shown on the following schedule if manufactured for sale at or below the net wholesale prices shown opposite the re-

spective types:

NOTE: For the purposes of this schedule, footwear utilizing no leather except for heel top lifts shall be considered as having been made without leather.

However, any person who wishes to produce shoes under the foregoing exemption must so notify the War Production Board by letter, stating the types of shoes to be made, the materials to be used, the price ranges and his estimated four months' production. A person who has not previously produced shoes in such price ranges must obtain specific price approval from the Office of Price Administration. In no case, may a person commence the production of shoes under this exemption until he has received acknowledgment from the War Production Board of the receipt of the letter of intention to produce and, where pertinent, of evidence of price approval from the Office of Price Administration.

(vi) The War Production Board may authorize transfers of quotas of footwear from one line or type to any other line or type and new or additional production in each line or type. It will in general be the policy of the War Production Board to authorize new or additional production in lines which will not require materials, components, facilities or labor needed for war purposes, and will not otherwise adversely affect or interfere with production for war or essential civilian purposes. Authorization will not be dependent upon the applicant's having been engaged in the production of shoes during the base period.

Application for such authorization shall be made by letter, describing fully the footwear manufactured or proposed to be manufactured, listing in detail all the materials to be used, and stating the pairs desired to be made in each price range, the source of the manpower that will be required, whether production will be reduced in any other line or lines, and all other facts pertaining to the application. Authorization of production of new lines under this paragraph will be made only with the condition that production may not begin until evidence is furnished of conformity with applicable Office of Price Administration regulations.

The War Production Board will issue footwear manufacturers' quota numbers for quotas authorized by the War Production Board or established because of base period production.

Production in new price lines, or increased production in established lines, may be granted by the War Production Board to cover production of civilian footwear purchased by or on behalf of United Nations Relief and Rehabilitation Administration or any other agency for foreign relief purposes,

(vii) Manufacturers qualifying for an increase in price on footwear with non-marking synthetic rubber soles, or soles and heels, under Order No. 13 under § 1499.3 (e) (3) of General Maximum Price Regulations, issued by the Office of Price Administration, may disregard such increase for the purposes of this paragraph (f). However, where the increase results in production of shoes in a higher price line, the number of pairs so produced shall be reported separately on the manufacturer's production report at the actual price, as indicated in the revised directions to said form.

(viii) Where a manufacturer produced in his base period a line of misses' and children's footwear of less than 50 pair or 2% of his total production of that type, he may increase his production of this line in any four month period to not more than six times his lawful production of the line in January, 1945, Provided, That, he deducts the production in excess of 100% of his base period production in this line from his other lines of misses' and children's shoes.

(ix) Any person with an established quota or quotas for the production of women's and growing girls' shoes may produce up to 10% of his aggregate quota or quotas in women's all-over genuine reptile (including frog) shoes in any line or lines at a net wholesale price of \$4.50 per pair or less, provided that the number of pairs of shoes produced under this paragraph (f) (3) (ix) is counted as pro-

duction against the quota for that line or those lines, if any. In the event that there is no quota in a line in which such shoes are being produced, or that the number of pairs in the quota for that line does not equal the number of all-over genuine reptile (including frog) shoes produced, the number of such shoes produced must be counted as production against the quota for that line, if any, and for the next lower lines in descending order as to price as far as is necessary, and exhausting the quota of each line before proceeding to the next lower line. Records must be kept of the number of all-over genuine reptile shoes produced in each line.

(x) Subject to the rules stated in this paragraph (f) (3) (x), any person who has no quota for the production of footwear, may produce for the four month period beginning September 1, 1945, and for each subsequent four month period, 24,000 pairs in any line or lines; any person whose civilian line quotas total less than 24,000 may increase his quota to 24,000 pairs in any line or lines for the same four month period; and any person whose aggregate quotas total more than 24,000 pair may transfer up to 24,000 pairs to any line or lines.

A person who has no quota, and a person whose production under this paragraph (f) (3) (x) will result in the manufacture of a type for which he has no quota or in a price range higher than his highest established price range for the same type of footwear, must obtain evidence of specific approval of his prices from the Office of Price Administration and submit it by registered mail to the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Ref: M-217, together with a letter stating the number of pairs he intends to produce in each new price range and new type, and the kinds of materials he intends to use.

(4) The period selected by any person as his six months' base period shall apply to all lines and may not be subsequently changed. After July 11, 1944, lines manufactured by any person in his six months' base period as previously filed with the War Production Board may not be revised, except to bring them into conformity with this order.

(g) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the

appeal.

(h) Records. All persons affected by this order shall keep and preserve records concerning their operations in accordance with § 944.15 of Priorities Regulation 1.

(i) Reports. All persons affected by this order shall file such reports and questionnaires as may be requested by the War Production Board subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942. (j) Communications. All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25 D. C. Ref. M. 217

ton 25, D. C., Ref.: M-217.

(k) Violations. Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 20th day of September 1945.

PART 3292—AUTOMOTIVE VEHICLES, PARTS AND EQUIPMENT

[Limitation Order L-352]

EXPORT OF AUTOMOBILES AND TRUCKS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of automobiles and trucks for defense, for private account and for export; and the

following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3292.136 General Limitation Order L-352—(a) Definitions. For the purposes of this order:

(1) "Automobile" means any self-propelled vehicle designed for the purpose of carrying passengers, or the chassis therefor, with a seating capacity of not more than ten persons, including station wagons, taxicabs and coupes with or without pickup boxes, but not including ambulances, hearses or sedan deliveries.

(2) "Truck" means any light, medium or heavy motor truck, truck-tractor or the chassis therefor, or any chassis on which a bus body is to be mounted and which (i) was designed to be propelled or drawn by mechanical power; (ii) was designed for use on or off-the-highway, for transportation of property or persons. This definition includes vehicles of the following types: trucks, truck chassis, truck tractors, off-the-highway motor vehicles, bus chāssis, carry-all suburbans, sedan deliveries and cab pickups, but does not include station wagons, coupes, fitted with pickup boxes, ambulances, hearses, taxicabs and integral type busses.

(b) Limitations on production for export, and on export. No producer of automobiles or trucks shall produce for export, or shall export, to any foreign country including Canada, any such vehicles in excess of the quantities authorized for such purposes by the War Production Board pursuant to this order. Exports of automobiles and trucks to any country other than Canada are subject to the export license requirements of the Foreign Economic Administration.

(c) Export quotas for new exporters and adjustments of quotas. Producers of automobiles and of trucks who have not previously exported such vehicles, and producers who desire adjustments in their export quotas may apply to the Automotive Division, War Production Board, Washington 25, D. C.

(d) Reports. Producers of automobiles and trucks shall report monthly to the War Production Board, the production of automobiles on Form WPB-4300 and the production of trucks on Form WPB-4341, in accordance with the instructions accompanying the forms.

(e) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment.

(f) Communications. All communications concerning this order shall, unless otherwise directed, be addressed to: Automotive Division, War Production Board, Washington 25, D. C., Ref: Order L-352.

Issued this 19th day of September 1945.

Chapter XI-Office of Price Administration

PART 1390—MACHINERY AND TRANSPORTA-TION EQUIPMENT

[RMPR 136, Amdt. 11]

MACHINES, PARTS, AND INDUSTRIAL EQUIPMENT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 136 is amended in the following respects:

1. Section 19 is amended by adding the following paragraphs (f), (g) and (h):

(f) Drop forgings, metal stampings and screw machine products. The maximum prices for sales by a manufacturer to any purchaser of any new drop forgings, metal stampings or screw machine products for which the manufacturer had a published list price or an established price in effect on the base date shall be the prices established under section 7 or computed under section 8, increased by 8%. For the purposes of this section, the term "drop forgings" is confined to such of these forgings as are subject to Revised Maximum Price Regulation 136 as machines, or parts or subassemblies of machines, listed in Appendix A.

(g) Radio tubes—(1) Definition. For the purposes of this section the term "radio tubes" means radio receiving tubes, prices of which were filed with the Office of Price Administration in accordance with the requirements of Revised Price Schedule 84 or Maximum Price Regulation 136, as amended, or may hereafter be filed in accordance with section 25 (a) of this regulation, and which were in actual use for radio receiver purposes in March, 1942. The term does not mean special purpose and transmitting tubes or any tubes not made in March, 1942, or tubes for which list prices were not established on March 31, 1942.

(2) For the purposes of the increased prices provided by this paragraph, the phrase "base date prices" shall mean the maximum prices in effect on March 31, 1942, as established by Revised Price Schedule 84.

(3) The maximum prices for sales by manufacturers of new radio tubes, except sales of new radio tubes to resellers or sales for replacement purposes, shall be the higher of the following prices:

(i) For unmodified tubes, the maximum prices established by section 7 or the base date prices increased by 10.4%.

(ii) For modified tubes, the maximum prices computed under section 8 or the maximum prices computed under section 8 using the base date prices increased by 10.4% as the "established price in effect on the base date."

(h) Radio parts—(1) Definition. For the purposes of this section the term "radio parts" means all parts and appliances designed for incorporation in radio receivers, electrical phonographs, and radio phonograph combinations (except radio tubes, metal stampings and screw machine products) prices of which were filed with the Office of Price Administration in accordance with the requirements of Revised Price Schedule 34 or Maximum Price Regulation 136, as

amended, or may hereafter be filed in accordance with section 25 (a) of this regulation, and which were in actual use for radio receiver, electric phonograph, and radio phonograph combination purposes in March, 1942.

(2) For the purposes of the increased prices provided by this paragraph, the phrase "base date prices" shall mean the maximum prices in effect on March 31, 1942, as established by Revised Price Schedule 84.

(3) The maximum prices for sales by manufacturers of any new radio parts for the purpose of installation in radio receivers, electric phonographs, or radio phonograph combinations, except sales of new radio parts to resellers or sales for replacement purposes, shall be the

higher of the following: (i) For unmodified radio parts, the prices established under section 7 or the base date prices increased by the follow-

ing percentages:

Colls for radio equipment, radio transformers and chokes __. Variable capacitors, speakers and speaker parts_ Fixed capacitors and parts for electric phonographs or electric phonographs combined with radios_____ All other radio parts___

- (ii) For modified radio parts, the prices computed under section 8 or the prices computed under section 8 using the base date prices increased by the percentages listed in the preceding subparagraph as the "established price in effect on the base date".
- 2. Appendix A: Products Covered by the Regulation, is amended by adding the following products and base date:

Electric phonographs and electric radio phonograph combination parts when sold by the manufacturer of the part or when sold to industrial, commercial or governmental users, March 31, 1942.

This amendment shall become effective September 19, 1945.

Issued this 19th day of September 1945.

PART 1390-MACHINERY AND TRANSPORTA-TION EQUIPMENT

[MPR 351, Amdt. 6]

FERROUS FORGINGS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 351 is amended in the following respects:

- 1. Section 1390.204 (b) is amended to read as follows:
- (b) Maximum prices. For any ferrous forging for which the manufacturer had a list price in effect on October 1, 1941, the maximum price to any purchaser shall be such list price increased by 8% and adjusted for all extra charges,

discounts, or allowances in use by the manufacturer on October 1, 1941, for a purchaser of the same class.

- 2. Section 1390.205 is amended to read as follows:
- § 1390.205 Maximum prices; forgings without list prices-(a) General rule. If the manufacturer had no list price in effect on October 1, 1941, the first applicable of the following prices shall be
- (1) For any ferrous forgings which the manufacturer contracted to sell during the period April 1 to October 1, 1941, and at least once at any time prior to the last sale in that period, the maximum price shall be the net price at which the manufacturer last agreed to sell the forging during that period increased by
- (2) For any forgings which the manufacturer contracted to sell at least twice prior to October 1, 1941, the maximum price shall be either (i) the net price at which the manufacturer last agreed to sell the forging increased by 8%, or (ii) the price computed under the provisions of § 1390.207.

There follows certain modifications of

these rules.

(b) Purchases of different classes. If the price is established in any manner under paragraph (a) except by computation under § 1390.207 and the net price for the last sale prior to October 1, 1941 was applicable to purchasers of a particular class only, maximum prices to purchasers of other classes shall be determined by the use of the differentials in the price between different classes of purchasers which the manufacturer had in effect on October 1, 1941.

(c) Quantity differentials. If the price is established in any manner under paragraph (a) except by computations under § 1390.207 and the net price for the last sale prior to October 1, 1941 was applicable only to an order of a particular quantity, the maximum price applicable to an order of a smaller quantity may be adjusted, and for a larger quantity shall be adjusted, to reflect the difference in unit cost of producing the smaller or larger quantity: Provided, That the manufacturer customarily applied equivalent quantity differentials of the same nature, that is, based on differences in unit cost, on October 1, 1941. The dif-ference in unit cost of producing the smaller or larger quantity shall be calculated on the basis of the price determining method and cost-estimating methods which the manufacturer used on October 1, 1941, in accordance with the applicable provisions of § 1390.207.

(d) Comparable forgings. For any ferrous forging for which the manufacturer had no list price in effect on October 1, 1941, and which is not priced under paragraph (a) except by computations under § 1390.207, but which is closely comparable to a forging the manufacturer agreed or offered to sell and which is priced under paragraph (a), except by computations under § 1390.207, the maximum price shall be the price for the most comparable forging established under paragraph (a) plus or minus the difference in total unit cost resulting from the change in specifications: However, this pricing method may be used only if it was the practice of the manufacturer on July 22, 1942, to calculate prices of forgings on the basis of prices previously charged for comparable forgings. For the purposes of this paragraph, total unit costs shall be calculated on the basis of the price-determining method and cost estimating methods which the manufacturer used on October 1, 1941, in accordance with the applicable provisions of § 1390.207. Changes in materials used, in tolerances, and in tests required may all be regarded as specification changes.

This amendment shall become effective September 19, 1945.

Issued this 19th day of September 1945.

PART 1388-DEFENSE-RENTAL AREAS

[Designation and Rent Declaration 31,1 Incl. Amdts. 1-36]

DESIGNATION OF AREAS AND RENT DECLARA-TIONS RELATING TO SUCH AREAS #

This compilation of Designation and Rent Declaration 31 includes Amendment 36, effective October 1, 1945. The items added or amended by Amendment 36 are indicated by notes.

In the judgment of the Price Administrator, defense activities have resulted or threatened to result in increases in the rents for housing accommodations in the

areas designated in § 1388.1341 inconsistent with the purposes of the Emergency Price Control Act of 1942; and

In the judgment of the Price Administrator, it is necessary and proper in order to effectuate the purposes of the said act to issue this declaration, setting forth the necessity for, and recommendations with reference to, the stabilization or reduction of rents for defense-area housing accommodations within the defense-rental areas designated in § 1388.1341;

Therefore, under the authority vested in the Price Administrator by said act, this designation and rent declaration is issued. Sec.

§ 1388.1342 Necessity. The necessity for stabilization or reduction of rents for defense-area housing accommodations in the defense-rental areas designated in § 1388.1341 is as follows:

The designations of defense-rental areas hereby and heretofore made, in-

clude the entire United States. The problem of inflation is nation-wide, and effective prevention of inflation requires action affecting subnation-wide stantially all elements of the national War conditions have caused economy. widespread increases in rents, and threaten further general price and rent rises. Any increases in housing rentals, an important factor in the cost of living, have serious inflationary effects. Additional rental increases are threatened not only by increased migrations from one part of the country to another in connection with war production and new or expanding military establishments, but also by general factors affecting the economy including the greatly increased purchasing power of the people of the nation in relation to a relatively stable and limited supply of housing. In each of the designated defense-rental areas, defense activities have resulted or threaten to result in an increase in rents for housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942.

§ 1388.1343 Recommendations. It is the judgment of the Price Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within any of the defense-rental areas designated in § 1388.1341 inconsistent with the purposes of the act. Accordingly, the Price Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within each of the designated areas on or about March 1, 1942. The Price Administrator has considered, so far as practicable, relevant factors deemed by him to be of general applicability, including fluctuations in property taxes and other costs. It is the judgment of the Price Administrator that the recommendations hereinafter set forth are generally fair and equitable and will effectuate the purposes of the act.

Recommendations with reference to the stabilization or reduction of rents for housing accommodations within each of the designated defense-rental areas are as follows:

- (a) The maximum rent for housing accommodations rented on March 1, 1942 should be the rent for such accommodations on that date. Appropriate provision consistent with such maximum rent date should be made for the maximum rent for housing accommodations not rented on March 1, 1942. In appropriate cases, including those relating to new construction or substantial changes of housing accommodations, provision consistent with the Emergency Price Control Act of 1942 should be made for the determination, adjustment, and modification of maximum rents of housing accommodations, but in principle such rents should not be greater than the rents generally prevailing for comparable accommodations in the particular area. on March 1, 1942.
- (b) Appropriate provision should be made with respect to the restraint of evictions and other actions relating to the recovery of possession.

- (c) Appropriate provision should be made to prevent the circumvention or evasion of maximum rents by any method whatever.
- § 1388.1344 Maximum rent regulation. If within sixty days after the issuance of this designation and rent declaration, rents for housing accommodations within any defense-rental area designated in § 1388.1341 have not in the judgment of the Price Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the foregoing recommendations, the Price Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.
- § 1388.1345 Effective date. This designation and rent declaration (§§ 1388.-

1341 to 1388.1345, inclusive) shall become effective October 5, 1942. [Designation and Rent Declaration 31 originally issued October 5, 1942]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, War Department

PART 203—BRIDGE REGULATIONS ALLOWAY CREEK, QUINTON, N. J.

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), the following regulations are prescribed to govern the operation of the swing span of the New Jersey State Highway Department bridge across Alloway Creek on Route 49 at Quinton, New Jersey:

§ 203.224 Alloway Creek, N. J.; New Jersey State Highway Department bridge at Quinton, N. J. (a) The owner of or agency controlling the bridge will not be required to keep a draw tender in constant attendance.

(b) Whenever a vessel unable to pass under the closed bridge desires to pass through the draw, at least 24 hours' advance notice of the time the opening is required shall be given to the authorized representative of the owner or agency controlling the bridge.

(c) Upon receipt of such advance notice, the said authorized representative shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) The owner of or agency controlling the bridge shall keep conspicuously posted on both the upstream and downstream sides thereof, in such manner that it can be easily read at any time, a copy of these regulations, together with a notice stating exactly how the representative specified in paragraph (b) may be reached.

(e) The operating machinery of the draw shall be maintained in a serviceable condition, and the draw shall be opened and closed at intervals frequent enough to make certain that the machinery is in proper order for satisfactory operation. Chapter I-Veterans' Administration

PART 25-MEDICAL

HOSPITAL AND DOMICILIARY CARE

§ 25.6060 Out-patient treatment. (a) Out-patient treatment, medical or dental, including necessary medicines, prosthetic appliances and other supplies. may be rendered to the following applicants under the conditions stated:

(1) Veterans of wars as defined in § 25.6047 (a) (1) of this chapter and officers retired for disability under the provisions of the Emergency Officers Retirement Act (Public No. 506, 70th Congress, as amended) who are in need of treatment for a disease or injury adjudicated as incurred or aggravated in active Federal service.

(2) Persons included in § 35.011 (c) and § 35.012 (d) of this chapter (approved May 11, 1944), who are in need of treatment for an injury or disease incurred in line of duty and for which they are receiving disability compensation or pension.

(3) Persons retired under the provisions of Public No. 18, 76th Congress, or Public No. 262, 77th Congress, who are in need of treatment for a disease or injury determined as incurred or aggravated in line of duty in active service.

(4) Retired members of the Regular Establishment who have elected, under Public No. 314, 78th Congress, to receive pension for a service-connected condition and who are in need of treatment for such condition.

(5) Persons who were honorably discharged from the Army, Navy, Marine Corps or Coast Guard for disability incurred or aggravated in line of duty in active service or who are in receipt of pension for service-connected disability. A formal claim for disability compensation or pension will not be required of an applicant eligible for out-patient treatment by reason of discharge for disability incurred or aggravated in line of duty; and a denial of a claim for disability compensation or pension will not debar out-patient treatment for such disability. (See determination of line of duty, § 25.6047 (b) (4).)

(6) Persons pursuing a course of vocational training authorized under Public No. 16, 78th Congress, who are in need of treatment to avoid interruption

of such training.

(7) Persons properly referred by authorized officials of other Federal agencies, for which the Administrator of Veterans Affairs may agree to render such service under conditions stipulated by him, and Canadian and British pensioners of World War I, upon request of the Department of Veterans Affairs, Ottawa, Canada. Charges for treatment of patients of the classes specified herein will be at prescribed rates.

(8) Employees of the Veterans Administration, their families and the general public in emergencies, subject to conditions stipulated by the Administrator of Veterans Affairs. Charges for treatment of patients specified herein

will be at prescribed rates.

(b) While out-patient treatment is primarily authorized only for service-connected conditions, adjunct out-patient treatment for a nonservice-connected condition which is associated with and held to be aggravating disability from a disease or injury service connected may be also authorized in accordance with prescribed principles for persons defined in paragraph (a) (1) to (5) inclusive of this section. The opinion of the medical director may be requested in any individual case where advice as to the propriety of furnishing adjunct treatment is desired.

(c) Canceled. (September 24, 1945.) [53 Stat. 557, 10 U.S.C. 369a; 55 Stat. 733;

§ 3.202 Areas of the United States. For the purpose of allocation the United States is divided into two areas. The first area, Area I, includes southern New Hampshire; all of Massachusetts, Rhode Island, and Connecticut; southeastern New York as far north as Albany-Troy-Schenectady; all of New Jersey, Delaware, and the District of Columbia; Maryland as far west as Hagerstown; and eastern Pennsylvania as far west as Harrisburg. The second area, Area II,

In some of the territory contiguous to Area I, the demand for frequencies may in the future exceed the supply and when it does this region will be added to Area I. Until then, this region will not be included in Area I, but applications from this region will be given careful study and consideration to insure an equitable distribution of facilities throughout the region. This region includes the remainder of Maryland, Pennsylvania and New York (except the northeastern corner) not included in Area I; the northern half of West Virginia; all of

comprehends the remainder of the United States not included in Area I.

§ 3.203 Community stations. Community stations are limited to a maximum effective radiated power of 250 watts and a maximum antenna height of 250 feet over the average height of the terrain 10 miles from the transmitter. Upon proper showing that an antenna height in excess of 250 feet is necessary, authorization will be issued for such higher antenna but the Commission may in such cases require a reduction in radiated power. A minimum separation of 50 miles will be provided in the case of Community stations on the same channel and a minimum of 35 miles on adjacent channels.

(b) In Area I, 20 channels beginning with 104.1 megacycles and ending with 107.9 megacycles (Channels 81 through 100) are allocated for Community stations. All of these 20 channels are available in any community which is not the principal city of a metropolitan district. Ten of these channels are also available for assignment in principal cities of metropolitan districts which have fewer than

6 Metropolitan stations.2

(c) In Area II, 10 channels beginning with 104.1 megacycles and ending with 105.9 megacycles (Channels 81 through 90) are available for Community stations and may be used in any community which is not the principal city of a metropolitan district.3

(d) The main studio of a Community station shall be located in the city served and the transmitter shall be located as near the center of the city as practicable.

§ 3.204 Metropolitan stations. (a) In Area I, Metropolitan stations are limited to a maximum of 20 kilowats effective radiated power with a non-directional antenna having a height of 500 feet, as determined by the methods prescribed in the Standards of Good Engineering Practice concerning FM broadcast stations. Where higher antenna heights are available, they should be used but in such cases the Commission will authorize less than 20 kilowatts effective radiated power so that the coverage (within the 1000 uv/m contour) shall be substantially similar to that which would be provided by 20 kilowatts effective radiated power and a 500 foot antenna. Where the only antenna height available is less than 500 feet, the Commission may authorize its use but will not permit an increase in radiated power in excess of 20 kilowatts. In Area I, the service area of Metropolitan stations will not be protected beyond the 1000 uv/m contour and such stations will be located in such a

manner as to insure, insofar as possible, a maximum of FM service to all listeners. whether urban or rural.

(b) Metropolitan stations in Area II are designed primarily to render service to a single metropolitan district or a principal city, and to rural areas surrounding such metropolitan district or principal city. The Commission will designate service areas for Metropolitan stations in Area II and will authorize appropriate power and antenna height to cover the designated area in accordance with the Standards of Good Engineering Practice concerning FM broadcast stations; upon proper showing changes will be made in these service areas.4 Metropolitan stations will not be required to serve the entire service area designated by the Commission but no application will be granted for a Metropolitan station unless it is proposed to serve an area substantially greater than could be served by a Community station.

(c) Sixty frequencies are available for Metropolitan stations in Areas I and II. These frequencies begin at 92.1 megacycles and end at 103.9 megacycles (Channels 21 through 80).

(d) The main studio of a Metropolitan station shall be located within its 5000 uv/m contour. However, upon a special showing of need, the Commission may authorize the main studio to be located beyond the 5000 uv/m contour but not beyond the 1000 uv/m contour. transmitter shall be so located as to provide maximum service both to the city where the main studio is located and to the surrounding rural area.

§ 3.205 Rural stations. (a) Rural stations are designed primarily to furnish service to rural listeners. The service area of Rural stations may include the service areas designated by the Commission for Metropolitan stations upon a showing to the Commission that the additional area which the Rural station will serve is predominantly rural in character. As a guide, the Commission will consider that the additional area beyond the service area of a Metropolitan station which is proposed to be served, is predominantly rural in character if at least 50 percent of the population proposed to be added within the 50 uv/m contour live in rural areas or in communities smaller than 10,000.5 Exceptions to this rule will

⁴ In determining service areas for particular communities, the Commission will give consideration to population distribution, terrain, trade areas, economics and other pertinent factors, and applicants for Metropolitan stations in Area II should include in their applications a showing as to the service area the Commission should designate for the city in question. There are several current and recognized authorities on retail trading areas or consumer trading areas from which the applicant may prepare its showing and to which the Commission will give consideration in making its determination. Among these recognized authorities are the following: J. Walter Thompson (Retail Shopping Areas), Hearst Magazines, Inc. (Consumer Trading Areas), Rand McNally Map Co. (Trading Areas), and Hagastrom Map Co.'s Four Color Retail Trading Area Map.

⁶In making this computation, cities with populations in excess of 10,000 should be excluded if the signal in such cities is less

than 500 uv/m.

be permitted where a showing is made to the Commission that due to conditions of terrain or local factors, more extended service to unserved rural areas is possible by licensing Rural stations to serve an area which does not meet the above requirements than would otherwise be pos-

(b) Rural stations will not be licensed in Area I as presently defined. If in the future it becomes necessary to extend Area I by including part or all of the region set forth in footnote 1 of section 3.202, consideration will be given at that time to the question whether Rural stations should be licensed in this region.

(c) The 60 channels available for Metropolitan stations are also available for

Rural stations.

(d) The main studio of a Rural station shall be located within its 1000 uv/m contour. However, upon a special showing of need, the Commission may authorize the main studio to be located beyond the 1000 uv/m contour but not beyond the 50 uv/m contour.

RULES GOVERNING ADMINISTRATIVE PROCEDURE

Application for FM stations. § 3.211 Each applicant for a construction permit for a new FM broadcast station, change in facilities of any existing FM broadcast station, or FM station license or modification of license shall file with the Commission in Washington, D. C., three copies of applications on the appropriate form designated by the Commission and a like number of exhibits and other papers incorporated therein and made a part thereof. Only the original copy need be sworn to. If the application is for a construction permit for a new FM station, Form FCC No. 319 should be filed; for an FM license, Form FCC No. 320 should be filed; and for modification of an FM license or for change in facilities of an existing FM station, Form FCC No. 322 should be filed.

§ 3.212 Full disclosures. Each application shall contain full and complete disclosures with regard to the real party or parties in interest, and their legal, technical, financial, and other qualifications, and as to all matters and things required to be disclosed by the application forms.

§ 3.213 Installation or removal of apparatus. Applications for construction permit or modification thereof, involving removal of existing transmitting apparatus and/or installation of new transmitting apparatus, shall be filed at least 60 days prior to the contemplated removal and/or installation.

§ 3.214 Period of construction. Each construction permit will specify a maximum of 60 days from the date of granting thereof as the time within which construction of the station shall begin, and a maximum of six months thereafter as the time within which construction shall be completed and the station ready for operation, unless otherwise determined by the Commission upon proper showing in any particular case.

§ 3.215 Forfeiture of construction permits: extension of time. (a) A construction permit shall be automatically

Ohio and Indiana; southern Michigan as far north as Saginaw; eastern Illinois as far west as Rockford-Decatur; and southeastern Wisconsin as far north as Sheboygan.

2 For the time being, until more FM stations are authorized, the Commission will not authorize Community stations in principal cities of metropolitan districts in Area I having 4 or more AM stations.

The 10 frequencies from 106.1 to 107.9 megacycles which are available for Com-munity stations in Area I but not in Area II will be assigned in Area II in the future in accordance with the needs of the area as shown by future developments. In the meantime they will be available for facsimile.

forfeited if the station is not ready for operation within the time specified therein or within such further time as the Commission may have allowed for completion, and a notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the ex-

piration date. (b) Any application 1 for extension of time within which to construct a station shall be filed at least thirty days prior to the expiration date of such permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than thirty days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the exten-

§ 3.216 Equipment tests. (a) Upon completion of construction of an FM station in exact accordance with the terms of the construction permit, the technical provisions of the application therefor and the rules and regulations and Standards of Good Engineering Practice governing FM stations and prior to filing of application for license, the permittee is authorized to test the equipment for a period not to exceed 90 days: Provided. That the inspector in charge of the district in which the station is located and the Commission are notified 2 days in advance of the beginning of

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date of beginning for the period of such tests as and when such action may appear to be in the public interest, convenience,

and necessity.

(c) Within the 90-day period prescribed by this section for equipment tests, field intensity measurements in accordance with the methods prescribed in the Standards of Good Engineering Practice Concerning FM Broadcasting shall be submitted to the Commission. The Commission may grant extensions of time upon showing of reasonable need therefor. The proof of performance specified in this subsection shall be made by Metropolitan and Rural stations only and need not be made by Community stations.

§ 3.217 Program tests. (a) When construction and equipment tests are completed in exact accordance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations

and Standards of Good Engineering Practice governing FM stations, and after an application for station license has been filed with the Commission showing the transmitter to be in satisfactory operating condition, the permittee is authorized to conduct program tests in exact accordance with the terms of the construction permit for a period not to exceed 30 days: Provided. That the inspector in charge of the district in which the station is located and the Commission are notified 2 days in advance of the beginning of such tests.

(b) The Commission reserves the right to cancel such tests or suspend, or change the date of beginning for the period of such tests as and when such action may appear to be in the public interest, convenience, and necessity by

notifying the permittee.

(c) The authorization for tests embodied in this section or § 3.216 shall not be construed as constituting a license to operate but as a necessary part of the construction.

§ 3,218 Normal license period. FM broadcast station licenses will be issued so as to expire at the hour of 3 a. m., e. s. t. and will be issued for a normal license period of one year.

§ 3.219 License, simultaneous modification and renewal. When an application is granted by the Commission necessitating the issuance of a modified license less than 60 days prior to the expiration date of the license sought to be modified and an application for renewal of said license is granted subsequent or prior thereto (but within 30 days of expiration of the present license) the modified license as well as the renewal license shall . be issued to conform to the combined action of the Commission.

§ 3.220 Renewal of license. less otherwise directed by the Commission, each application for renewal of an FM license shall be filed at least 60 days prior to the expiration date of the license sought to be renewed (Form FCC No. 311). No application for renewal of license of an FM broadcast station will be considered unless there is on file with the Commission, the information currently required by §§ 1.301-1.304, reference to which by date and file number shall be included in the application.

(b) Whenever the Commission regards an application for a renewal of an FM license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a date certain, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

§ 3.221 Temporary extension of station licenses. Where there is pending before the Commission any application, investigation, or proceeding which, after hearing, might lead to or make necessary the modification of, revocation of, or the refusal to renew an existing FM license, the Commission may, in its discretion, grant a temporary extension of such license: Provided, however, That no such temporary extension shall be construed as a finding by the Commission that the operation of any radio station thereunder will serve public interest. convenience, and necessity beyond the express terms of such temporary extension of license: And provided further, That such temporary extension of license will in no wise affect or limit the action of the Commission with respect to any pending application or proceed-

§ 3.222 Repetitious applications. (a) Where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new FM broadcast station, or for change of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of 12 months from the effective date of the Commission's order.

(b) Where an appeal has been taken from the action of the Commission in denying a particular application, another application for the same class of broadcast station and for the same area, in whole or in part, filed by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest, will not be considered until the final disposition of such

appeal.

§ 3.223 Assignment or transfer of (a) Voluntary. control. Application for consent to voluntary assignment of an FM construction permit or license or for consent to voluntary transfer of control of a corporation holding an FM construction permit or license shall be filed with the Commission on Form FCC No. 314 (assignment of license) and Form FCC No. 315 (transfer of control) at least 60 days prior to the contemplated effective date of assignment or transfer of

(b) Involuntary. In the event of the death or legal disability of a permittee or licensee, or a member of a partnership, or a person directly or indirectly in control of a corporation, which is a permittee or licensee:

(1) The Commission shall be notified in writing promptly of the occurrence of such death or legal disability, and

(2) Within thirty days after the occurrence of such death or legal disability, application on Form FCC No. 314 or 315 shall be filed for consent to involuntary assignment of such FM permit or license or for involuntary transfer of control of such corporation to a person or entity legally qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved.

RULES RELATING TO LICENSING POLICIES

§ 3.231 Exclusive affiliation of station. No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express

¹ Form FCC No. 701.

or implied with a network organization ¹ under which the station is prevented or hindered from, or penalized for, broadcasting the programs of any other network organization.

\$ 3.232 Territorial exclusivity. No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which prevents or hinders another broadcast station serving substantially the same area from broadcasting the network's programs not taken by the former station, or which prevents or hinders another broadcast station serving a substantially different area from broadcasting any program of the network organization. This subpart shall not be construed to prohibit any contract, arrangement, or understanding between a station and a network organization pursuant to which the station is granted the first call in its primary service area upon the programs of the network organization.

§ 3.233 Term of affiliation. No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which provides, by original terms, provisions for renewal, or otherwise for the affiliation of the station with the network organization for a period longer than two years: Provided, That a contract, arrangement, or understanding for a period up to two years, may be entered into within six months prior to the commencement of such period.

§ 3.234 Option time. No license shall be granted to an FM broadcast station which options for network programs any time subject to call on less than 56 days' notice, or more time than a total of three hours within each of four segments of the broadcast day, as herein described. The broadcast day is divided into 4 segments, as follows: 8:00 a. m. to 1:00 p. m.; 1:00 p. m. to 6:00 p. m.; 6:00 p. m. to 11:00 p. m.; 11:00 p. m. to 8:00 a. m.* Such options may not be exclu-

sive as against other network organizations and may not prevent or hinder the station from optioning or selling any or all of the time covered by the option, or other time, to other network organizations.

§ 3.235 Right to reject programs. No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which (a), with respect to programs offered pursuant to an affiliation contract. prevents or hinders the station from rejecting or refusing network programs which the station reasonably believes to be unsatisfactory or unsuitable; or which (b), with respect to network programs so offered or already contracted for, prevents the station from rejecting or refusing any program which, in its opinion, is contrary to the public interest, or from substituting a program of outstanding local or national importance.

§ 3.236 Network ownership of stations. No license shall be granted to a network organization, or to any person directly or indirectly controlled by or under common control of a network organization, for an FM broadcast station in any locality where the existing FM broadcast stations are so few or of such unequal desirability (in terms of coverage, power, frequency, or other related matters) that competition would be substantially restrained by such licensing.

§ 3.237 Dual network operation. No license shall be issued to an FM broadcast station affiliated with a network organization which maintains more than one network of FM broadcast stations: Provided, That this regulation shall not be applicable if such networks are not operated simultaneously, or if there is no substantial overlap in the territory served by the group of stations comprising each such network.

§ 3.238 Control by networks of station rates. No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, fixing or altering its rates for the sale of broadcast time for other than the network's programs.

§ 3.239 Use of common antenna site. No FM license or renewal of an FM license will be granted to any person who owns, leases, or controls a particular site which is peculiarly suitable for FM broadcasting in a particular area and (a) which is not available for use by other FM licensees; and (b) no other comparable site is available in the area; and (c) where the exclusive use of such site by the applicant or licensee would unduly limit the number of FM stations that can be authorized in a particular area or

from standard to daylight saving time or vice versa.

*The word "control" as used herein, is not limited to full control but includes such a measure of control as would substantially affect the availability of the station to other networks.

would unduly restrict competition among FM stations.

§ 3.240 Multiple ownership. (a) No person (including all persons under common control) shall, directly or indirectly, own, operate or control more than one FM broadcast station that would serve substantially the same service area as another FM broadcast station owned, operated, or controlled by such person.

(b) No person (including all persons under common control) shall, directly or indirectly, own, operate, or control more than one FM broadcast station, except upon a showing (1) that such ownership, operation, or control would foster competition among FM broadcast stations or provide an FM broadcasting service distinct and separate from existing services, and (2) that such ownership, operation, or control would not result in the concentration of control of FM broadcasting facilities in a manner inconsistent with public interest, convenience, or necessity; Provided, however, That the Commission will consider the ownership, operation, or control of more than six FM broadcast stations to constitute the concentration of control of FM broadcasting facilities in a manner inconsistent with public interest. convenience, or necessity.

RULES RELATING TO EQUIPMENT

§ 3.251 Transmitter power. The rated power and operating power range of transmitters shall be in accordance with the Standards of Good Engineering Practice concerning FM Broadcast Stations.

§ 3.252 Frequency monitor. The licensee of each FM broadcast station shall have in operation at the transmitter an approved frequency monitor independent of the frequency control of the transmitter. For detailed requirements thereof see Standards of Good Engineering Practice concerning FM Broadcast Stations.

§ 3.253 Modulation monitor. The licensee of each FM broadcast station shall have in operation at the transmitter an approved modulation monitor. For detailed requirements thereof see Standards of Good Engineering Practice concerning FM Broadcast Stations.

§ 3.254 Required transmitter performance. The construction, installation, operation, and performance of the FM broadcast transmitter system shall be in accordance with the Standards of Good Engineering Practice concerning FM Broadcast Stations.

§ 3.255 Auxiliary transmitter. Upon showing that a need exists for the use of an auxiliary transmitter in addition to the regular transmitter of a broadcast station, a license therefor may be issued, *Provided*, That:

(a) An auxiliary transmitter may be installed either at the same location as

and network organization. Shifts from daylight saving to standard time or vice versa may or may not shift the specified hours correspondingly as agreed by the station and network organization.

^{*}These segments are to be determined for each station in terms of local time at the location of the station but may remain constant throughout the year regardless of shifts

⁶ The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

the main transmitter or at another location.

(b) A licensed operator shall be in control whenever an auxiliary transmitter is placed in operation.

(c) The auxiliary transmitter shall be maintained so that it may be put into immediate operation at any time for the following purposes:

(1) The transmission of the regular programs upon the failure of the main

transmitter.

(2) The transmission of regular programs during maintenance or modification work on the main transmitter, necessitating discontinuance of its operation for a period not to exceed five days.

(3) Upon request by a duly authorized representative of the Commission.

- (d) The auxiliary transmitter shall be tested at least once each week to determine that it is in proper operating condition and that it is adjusted to the proper frequency, except that in case of operation in accordance with paragraph (c) of this section during any week, the test in that week may be omitted provided the operation under paragraph (c) is satisfactory. A record shall be kept of the time and result of each test operating under paragraph (c). Tests shall be conducted only between midnight and 6 a. m., local standard time.
- (e) The auxiliary transmitter shall be equipped with satisfactory control equipment which will enable the maintenance of the frequency emitted by the station within the limits prescribed by these regulations.
- (f) The operating power of an auxiliary transmitter may be less than the authorized power of the main transmitter, but in no event shall it be greater than such power.
- § 3.256 Alternate main transmitters. The licensee of an FM broadcast station may be licensed for alternate main transmitters provided that a technical need for such alternate transmitters is shown and that the following conditions are met:
- (a) Both transmitters are located at the same place.
- (b) Both transmitters shall have the same power rating.
- (c) Both transmitters shall meet the construction, installation, operation, and performance requirements of the Standards of Good Engineering Practice concerning FM Broadcast Stations.
- § 3.257 Changes in equipment and antenna system. Licensees of FM broadcast stations shall observe the following provisions with regard to changes in equipment and antenna system:

Such as licenses maintatining 24-hour which may be made without authority as set forth elsewhere in the rules and regulations and the Standards of Good Engineering Practice or as authorized by the Commission by letter or by construction permit, Where such operation is required for periods in excess of 5 days, request therefor shall be in accordance with \$1,365.

¹Such as licensees maintaining 24-hour schedule and needing alternate operation for maintenance, or where developmental work requires alternate operation.

- (a) No changes in equipment shall be made:
- That would result in the emission of signals outside of the authorized channel.
- (2) That would result in the external performance of the transmitter being in disagreement with that prescribed in the Standards of Good Engineering Practice concerning FM Broadcast Stations.
- (b) Specific authority, upon filing formal application (Form FCC No. 322) therefor, is required for a change in service area or for any of the following changes:
- (1) Changes involving an increase or decrease in the power rating of the transmitter.
- (2) A replacement of the transmitter as a whole.
- (3) Change in the location of the transmitting antenna.
- (4) Change in antenna system, including transmission line.
- (5) Change in location of main studio, if it is proposed to move the main studio to a different city from that specified in the license.
- (6) Change in the power delivered to the antenna.
- (7) Change in frequency control and/or modulation system.
- (c) Specific authority, upon filing informal request therefor, is required for a change in the indicating instruments installed to measure transmitter power output, except by instruments of the same maximum scale reading and accuracy.
- (d) Other changes, except as above provided for in this section or in Standards of Good Engineering Practice concerning FM Broadcast Stations prescribed by the Commission may be made at any time without the authority of the Commission, Provided, That the Commission shall be promptly notified thereof and such changes shall be shown in the next application for renewal of license.

RULES RELATING TO TECHNICAL OPERATION

- § 3.261 Time of operation. All FM broadcast stations will be licensed for unlimited time operation. Until further notice a minimum of 6 hours per day of operation will be required, which shall consist of 3 hours during the period 6 a. m., to 6 p. m., local standard time, and 3 hours during the period 6 p. m. to midnight, local standard time. In an emergency, however, when due to causes beyond the control of a licensee, it becomes impossible to continue operation, the station may cease operation for a period not to exceed 10 days: Provided, That the Commission and the inspector in charge of the radio district in which the station is located shall be notified in writing immediately after the emergency develops.
- § 3.262 Experimental operation. The period between 12:00 midnight, and 6 a.m., local standard time, may be used for experimental purposes in testing and maintaining apparatus by the licensee of any FM broadcast station on its assigned frequency and not in excess of its authorized power, without specific authorization from the Commission.

- § 3.263 Station inspection. The licensee of any FM radio station shall make the station available for inspection by representatives of the Commission at any reasonable hour.
- § 3.264 Station license, posting of. The original of each station license shall be posted in the transmitter room.
- § 3.265 Operator requirements. One or more licensed radiotelephone first class operators shall be on duty at the place where the transmitting apparatus of each station is located and in actual charge thereof whenever it is being operated. The original license (Form FCC No. 759) of each station operator shall be posted at the place where he is on duty. The licensed operator on duty and in charge of an FM broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and by the rules and regulations governing such stations. However, such duties shall in nowise interfere with the operation of the broadcast transmitter.
- § 3.266 Facsimile broadcasting and Multiplex transmission. Transmission of simplex facsimile on FM channels in accordance with the Commission's Standards of Good Engineering Practice on facsimile may be permitted, upon application to the Commission, during hours not required to be devoted to FM aural broadcasting. The Commission may grant experimental authority to an FM station for the multiplex transmission of facsimile or other signals and aural broadcast programs, provided that the transmission of facsimile or other signals is incidental to the aural broadcast, does not reduce the quality of the aural program, and that a filter or other additional equipment is not required for receivers not equipped to receive facsimile or other signals.
- § 3.267 Operating power: how determined. The operating power, and the requirements for maintenance thereof, of each FM broadcast station shall be determined by the methods prescribed in the Standards of Good Engineering Practice covering FM broadcast stations.
- § 3.268 Modulation. The percentage of modulation of all stations shall be maintained as high as possible consistent with good quality of transmission and good broadcast practice and in no case less than 85 percent nor more than 100 percent on peaks of frequent recurrence during any selection which normally is transmitted at the highest level of the program under consideration.
- § 3.269 Frequency tolerance. The center frequency of each FM broadcast station shall be maintained within 2,000 cycles of the assigned center of frequency.
- § 3.270 Inspection of tower lights and associated control equipment. The license of any FM station which has an antenna or antenna supporting structure(s) required to be illuminated pursuant to the provisions of section 303 (q)

of the Communications Act of 1934, as amended:

(a) Shall make a visual observation of the tower lights at least once each 24 hours to insure that all such lights are functioning properly as required.

(b) Shall report immediately by telephone or telegraph to the nearest Airways Communication Station or office of the Civil Aeronautics Administration any observed failure of the tower lights. not corrected within 30 minutes, regardless of the cause of such failure. Further notification by telephone or telegraph shall be given immediately upon resumption of the required illumination.

(c) Shall inspect at intervals of at least once each 3 months all flashing or rotating beacons and automatic lighting control devices to insure that such apparatus is functioning properly as re-

quired.

OTHER RULES RELATING TO OPERATION

§ 3.281 Logs. The licensee of each FM station shall maintain program and operating logs and shall require entries to be made as follows:

(a) In the program log:

(1) An entry of the time each station identification announcement (call letters and location) is made.

(2) An entry briefly describing each program broadcast, such as "music," "drama," "speech," etc., together with the name or title thereof and the sponsor's name, with the time of the beginning and ending of the complete program. If a mechanical record is used, the entry shall show the exact nature thereof, such as "record," "transcription," etc., and the time it is announced as a mechanical reproduction. speech is made by a political candidate the name and political affiliations of such speaker shall be entered.

(3) An entry showing that each sponsored program broadcast has been announced as sponsored, paid for, or fur-

nished by the sponsor.

(4) An entry showing, for each program of network origin, the name of the network originating the program.

(b) In the operating log:

(1) An entry of the time the station begins to supply power to the antenna, and the time it stops.

(2) An entry of the time the program

begins and ends.

(3) An entry of each interruption to the carrier wave, its cause, and duration.

- (4) An entry of the following each 30 minutes.
- (i) Operating constants of last radio stage (total plate current and plate volt-
- (ii) Transmission line current or voltage.

(iii) Frequency monitor reading.

(5) Log of experimental operation during experimental period. (If regular operation is maintained during this period, the above logs shall be kept.)

(i) A log must be kept of all operation during the experimental period. If the entries required above are not applicable thereto, then the entries shall be made so as to fully describe the operation.

(c) Where an antenna or antenna supporting structure(s) is required to be

illuminated, the licensee shall make entries in the radio station log appropriate to the requirements of section 3.240 as

(1) The time the tower lights are turned on and off if manually controlled.

(2) The time the daily visual observation of the tower lights was made.

(3) In the event of any observed failure of a tower light.

(i) Nature of such failure.

(ii) Time the failure was observed.

(iii) Time and nature of the adjustments, repairs or replacements made.

(iv) Airways Communication Station (C. A. A.) notified of the failure of any tower light not corrected within thirty minutes and the time such notice was

(v) Time notice was given to the Airways Communication Station (C. A. A.) that the required illumination was re-

(4) Upon completion of the periodic inspection required at least once each three months.

(i) The date of the inspection and the condition of all tower lights and associated tower lighting control devices.

(ii) Any adjustments, replacements or repairs made to insure compliance with the lighting requirements.

§ 3.282 Logs, retention of. Logs of FM stations shall be retained by the licensee for a period of 2 years. However, logs incident to or involved in any claim or complaint of which the licensee has notice shall be retained by the licensee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

§ 3.283 Logs, by whom kept. Each log shall be kept by the person or persons competent to do so, having actual knowledge of the facts required, who shall sign the log when starting duty and again when going off duty. The logs shall be made available upon request by an authorized representative of the Commis-

§ 3.284 Log form. The log shall be kept in an orderly manner, in suitable form, and in such detail that the data required for the particular class of station concerned are readily available. Key letters or abbreviations may be used if proper meaning or explanation is contained elsewhere in the log.

§ 3.285 Correction of logs. No log or portion thereof shall be erased, obliterated, or willfully destroyed within the period of retention provided by the rules. Any necessary correction may be made only by the person originating the entry who shall strike out the erroneous portion, initial the correction made, and indicate the date of correction.

§ 3.286 Rough logs. Rough logs may be transcribed into condensed form, but in such case the original log or memoranda and all portions thereof shall be preserved and made a part of the complete log.

§ 3.287 Station identification. (a) A licensee of an FM broadcast station shall make station identification announcement (call letters and location) at the beginning and ending of each time of operation and during operation (1) on the hour and (2) either on the half hour or at the quarter hour following the hour and at the quarter hour preceding the next hour: Provided:

(b) Such identification announcement need not be made on the hour when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or operatic production of longer duration than 30 minutes. In such cases the identification announcement shall be made at the beginning of the program, at the first interruption of the entertainment continuity, and at the conclusion of the

program.

(c) Such identification announcement need not be made on the half hour or quarter hours when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or operatic production. In such cases an identification announcement shall be made at the first interruption of the entertainment continuity and at the conclusion of the program, Provided, That an announcement within 5 minutes of the times specified in subparagraph (2) of paragraph (a) of this section will satisfy the requirements of identification announcements.

(d) In the case of variety show programs, baseball game programs, or similar programs of longer duration than 30 minutes, the identification announcement shall be made within 5 minutes of the hour and of the times specified in subparagraph (2) of paragraph (a) of

this section.

(e) In the case of all other programs, the identification announcement shall be made within 2 minutes of the hour and of the times specified in subparagraph (2) of paragraph (a) of this section.

(f) In making the identification announcement, the call letters shall be given only on the channel of the station identified thereby.

§ 3.288 Mechanical records. Each program broadcast which consists in whole or in part of one or more mechanical reproductions shall be announced in

the manner and to the extent set out below.

(a) Each such program of longer duration than 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by appropriate announcement at the beginning of the program, at each 30-minute interval and at the conclusion of the program; Provided, however, That the identifying announcement at each 30-minute interval is not required in case of a mechanical reproduction consisting of a continuous uninterrupted speech, play, religious service, symphony concert or operatic production of longer than 30 minutes.

(b) Each such program of a longer duration than 5 minutes and not in excess of 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by an appropriate announcement at the beginning and end of the program.

(c) Each such program of five minutes or less, consisting in whole or in part of mechanical reproductions, shall be identified by appropriate announcement immediately preceding the use thereof.

(d) In case a mechanical reproduction is used for background music, sound effects, station identification, program identification (theme music of short duration) or identification of the sponsorship of the program proper, no announcement of the mechanical reproduction is required.

(e) The exact form of identifying announcement is not prescribed, but the language shall be clear and in terms commonly used and understood. A licensee shall not attempt affirmatively to create the impression that any program being broadcast by mechanical reproduction consists of live talent.

§ 3.289 Sponsored programs, announcement of. (a) In the case of each program for the broadcasting of which money, services, or other valuable consideration is either directly or indirectly paid or promised to, or charged or received by, any radio broadcast station, the station broadcasting such program shall make, or cause to be made, an appropriate announcement that the program is sponsored, paid for, or furnished

either in whole or in part.

(b) In the case of any political program or any program involving the discussion of public controversial issues for which any records, transcriptions, talent, scripts, or other material or services of any kind are furnished, either directly or indirectly, to a station as an inducement to the broadcasting of such program, an announcement shall be made both at the beginning and conclusion of such program on which such material or services are used that such records, transcriptions, talent, scripts, or other material or services have been furnished to such station in connection with the broadcasting of such program: Provided, however, That only one such announcement need be made in the case of any such program of five minutes' duration or less, which announcement may be made either at the beginning or conclusion of the program.

(c) The announcement required by this section shall fully and fairly disclose the true identity of the person or persons by whom or in whose behalf such payment is made or promised, or from whom or in whose behalf such services or other valuable consideration is received, or by whom the material or services referred to in paragraph (b) hereof are furnished. Where an agent or other person contracts or otherwise makes arrangements with a station on behalf of another, and such fact is known to the station, the announcement shall disclose the identity of the person or persons in whose behalf such agent is acting instead of the name of such agent.

(d) In the case of any program, other than a program advertising commercial products or services, which is sponsored, paid for or furnished, either in whole or in part, or for which material or services referred to in paragraph (b) hereof are furnished, by a corporation, committee, association or other unincorporated group, the announcement re-

quired by this section, shall disclose the name of such corporation, committee, association or other unincorporated group. In each such case the station shall require that a list of the chief executive officers or members of the executive committee or of the board of directors of the corporation, committee, association or other unincorporated group shall be made available for public inspection at one of the radio stations carrying the program.

(e) In the case of programs advertising commercial products or services, an announcement stating the sponsor's corporate or trade name or the name of the sponsor's product, shall be deemed sufficient for the purposes of this section and only one such announcement need be made at any time during the course

of the program.

§ 3.290 Broadcasts by candidates for public office—(a) Definitions. A "legally qualified candidate" means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, state or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who:

(1) Has qualified for a place on the

ballot or

(2) Is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method, and (i) has been duly nominated by a political party which is commonly known and regarded as such, or (ii) makes a substantial showing that he is a bona fide candidate for nomination or office, as the case may be.

(b) General requirements. No station licensee is required to permit the use of its facilities by any legally qualified candidate for public office, but if any licensee shall permit any such candidate to use its facilities, it shall afford equal opportunities to all other such candidates for that office to use such facilities; Provided, That such licensee shall have no power of censorship over the material broadcast by any such candidate.

The rates, if (c) Rates and practices. any, charged all such candidates for the same office shall be uniform and shall not be rebated by any means, directly or indirectly; no licensee shall make any discrimination in charges, practices, regulations, facilities, or services for or in connection with the service rendered pursuant to these rules, or make or give any preference to any candidate for public office or subject any such candidate to any prejudice or disadvantage; nor shall any licensee make any contract or other agreement which shall have the effect of permitting any legally qualified candidate for any public office to broadcast to the exclusion of other legally qualified candidates for the same public office.

(d) Inspection of records. Every licensee shall keep and permit public inspection of a complete record of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such requests, and the charges made, if any, if request is granted.

§ 3.291 Rebroadcast. (a) The term "rebroadcast" means reception by radio of the program of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station.

(b) The licensee of an FM broadcast station may, without further authority of the Commission, rebroadcast the program of a United States standard, FM or noncommercial educational broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program.¹

(c) (1) The licensee of an FM broadcast station located within a state or the District of Columbia may, without further authority of the Commission, rebroadcast on a noncommercial basis a noncommercial program of a United States international broadcast station.

(2) The licensee of an FM broadcast station located in any territory or insular possession of the United States may, without further authority of the Commission, rebroadcast any program of a United States international broadcast station.

(3) In the case of any rebroadcast under the provisions of this paragraph (c), the Commission shall be notified of the call letters of each station whose program is rebroadcast and the licensee shall certify that express authority has been received from the licensee of the station originating the program.

(d) No licensee of an FM broadcast station shall rebroadcast the program of any United States radio station not designated in (b) or (c) above without written authority having first been obtained from the Commission upon application (informal) accompanied by written consent or certification of consent of the licensee of the station originating the program.

Note: By Order No. 82, dated and effective June 24, 1941, until further order of the Commission, § 3.291 (d) is suspended only insofar as it requires prior written authority of the Commission for the rebroadcasting of programs originated for that express purpose by United States Government radio stations.

¹ As used in this section, program includes any complete program or part thereof.

² In case a program is transmitted from its point of origin to a broadcast station entirely by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not consid-

ered a rebroadcast.

³The notice and certification of consent shall be given within three (3) days of any single rebroadcast, but in case of the regular practice of rebroadcasting certain programs of a standard or FM broadcast station several times during a license period, notice and certification of consent shall be given for the ensuing license period with the application for renewal of license, or at the beginning of such rebroadcast practice if begun during a license period.

'The broadcasting of a program relayed by a relay broadcast station or studio transmitter link is not considered a rebroadcast. APPENDIX

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter D-Freight Forwarders

PART 447—FILING OF CONTRACTS FOR JOINT LOADING AND TERMINAL SERVICES AND FACILITIES

At a session of the Interstate Commerce Commission, Division 1, held at No. 186—5 its office in Washington, D. C., on the 12th day of September, A. D. 1945.

It appearing, that subsection 412 (a) of the Interstate Commerce Act provides, among other things, that the Commission may require any freight forwarder subject to part IV of the act to file with it a true copy of any contract or agreement between such forwarder and any other person in relation to transportation facilities, services, or traffic affected by the provisions of part IV;

It further appearing, that subsection 404 (d) of the act provides: "Nothing in this part shall be construed to prohibit any freight forwarder from entering into an agreement with another freight forwarder for the joint loading of traffic between points in transportation subject to this part, except that the Commission may cancel, suspend, or require the modification of any such agreement which it finds, after reasonable opportunity for hearing, to be inconsistent with the national transportation policy declared in this act."

And it further appearing, that it is necessary for the purpose of administration, execution, and enforcement of part IV of said act that all freight forwarders subject to the act should be required to file with the Commission copies of contracts and agreements, to which two or more of them are parties, for joint loading and for all terminal services and facilities, and the division so finding, therefore, it is ordered, that

§ 447.1 Filing of contracts between freight forwarders for joint loading. All contracts or agreements between freight forwarders for joint loading and for all terminal services and facilities shall be in writing; and each freight forwarder which is a party to such a contract or agreement on the date this order becomes effective or which shall thereafter enter into such a contract or agreement, immediately shall file with the Commission a verified copy of each such contract in the form in which the same was or may be executed. (56 Stat. 294; 49 U. S. C. 1012)

Effective date. This order shall take effect and be in force on and after November 19, 1945.

Notice. Notice of this order shall be given to all freight forwarders subject to part IV of the Interstate Commerce Act by mailing a copy thereof to each known freight forwarder subject to the act, by posting one copy in the office of the Secretary of this Commission in Washington, D. C., and by filing it with the Director, Division of Federal Register.

By the Commission, Division 1.

MILK IN WASHINGTON, D. C., MARKETING AREA

NOTICE OF REPORT AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS

Notice of report and opportunity to file written exceptions with respect to a proposal which was not reported on in the report with respect to a proposed amended order, regulating the handling of milk in the Washington, D. C., marketing area filed June 30, 1945.

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Cum. Supp. 900.1 et seq.), notice is hereby given of the filing of this report of the Assistant Administrator, Production and Marketing Administration, with respect to a proposed amendment to the tentatively approved marketing agreement, as

amended, and order, as amended, regulating the handling of milk in the Washington, D. C., marketing area, to be made effective under the Agricultural Marketing Agreement Act of 1937 (7 U.S.C. 601 et seq.) which amendment would increase the price to be paid producers for milk disposed of for fluid consumption.

Interested parties may file exceptions to the report with the Hearing Clerk, Room 1331 South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 8th day after publication of this notice in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

This proceeding was initiated by the Office of Marketing Services, War Food Administration now Production and Marketing Administration through the issuance and publication in the FEDERAL REGISTER, on March 31, 1945, of a notice Pursuant to such notice of hearing. the hearing was convened in Washing-

ton, D. C., on April 16, 1945.

A report filed June 30, 1945, and published in the FEDERAL REGISTER July 3, 1945, stated conclusions reached with respect to other issues developed at the hearing. A small increase in the price of milk for Class I milk was recommended in that report, to compensate producers for the decrease recommended in the price for milk used in cream and cottage cheese. A separate proposal to increase the price of Class I milk by 49 cents per hundredweight was also made at the hearing and testimony with respect to this proposal was presented.

With respect to the proposal to increase the Class I price 49 cents per hundredweight it is concluded that this additional increase in the Class I price should

not be made at this time since:

1. Prices received by producers in this area for all milk, exclusive of dairy production payments, are greater in purchasing power without this additional increase than those received during the base period (August 1924-July 1929)

2. Prices received by producers in this area, without this additional increase but including the dairy production payments, are not unreasonable in view of prices of feeds, feed supplies, and other economic conditions affecting market supply and demand for milk and its products in

the marketing area.

The weighted average prices received by Washington producers for all milk exceeded by 8 cents per hundredweight in February 1945 the level necessary to give milk a purchasing power equal to that in the base period. During each month of 1944 prices received exceeded this measure of parity, ranging from 5 to 16 cents higher. Including dairy production payments, returns to producers for all milk exceeded parity by 68 cents in the year 1944.

One of the most significant factors affecting the relationship between the supply of milk produced locally and the demand for milk in the marketing area has been the tremendous increase in population. The population of the metropolitan Washington area has increased approximately 50 percent since 1940. The rapid influx of persons into the area, together with their increased buying power, has given rise to a sharp increase in the demand for milk. Fluid milk sales apparently increased by about 71 percent between 1940 and 1944. The location of several camps of the armed services within a relatively short distance of the city of Washington contributed to a great extent to this higher demand for milk.

Market receipts of milk from regularly inspected local producers apparently increased by about 24 percent between 1940

and 1944.

While on an annual basis market receipts were in excess of fluid milk and milk drink sales in the market in 1944, seasonal variations in receipts made it necessary in 1944 to supplement local supplies with outside receipts during half the year to supply local sales of milk and milk drinks, alone. This has been true since 1942. The local health departsince 1942. ments have approved, on temporary permits, the receipt in the area of milk and cream from plants designated as emergency milk plants. These plants are temporarily approved as sources of milk and cream without the health department regularly inspecting the farms supplying such plants and without requiring that such farms hold farm inspection permits. Purchases of milk from these emergency milk plants amounted to approximately 73 million pounds of milk in 1944 in addition to more than 1 million pounds of emergency approved cream.

The trend of milk production in the United States and in the states and areas adjacent to the Washington milkshed indicate that in the future more milk will be available at these emergency milk plants than has been true heretofore. Milk production trends are upward in most of these areas as well as in other nearby cities which have also been drawing upon these plants as sources of emer-

gency milk.

It was maintained at the hearing by the proponents of the 49-cent price increase that such an increase is necessary in order to bring the local inspected supply of milk more nearly in line with the demand for milk in the area. Evidence was presented in the hearing to show that the price of feeds and the cost of farm labor have increased substantially since January 1941. There have also been during part of this intervening period local shortages of feed supplies, particularly hay. The record also shows, however, that since January 1941 the price received by Washington producers has advanced from \$2.79 per hundredweight of 4 percent milk to \$3.97 per hundredweight, exclusive of dairy production payments. Direct dairy production payments to farmers in the Washington milkshed have been made since October 1943 and during the year 1945 will average slightly more than 60 cents per hundredweight. In addition, most of the producers in the Washington milkshed were given special payments on hay during the winter of 1943-1944, and they received a supplemental payment of 10 cents per hundredweight to help offset the effects of short hay supplies during the winter of 1944-1945.

These payments have been made to all dairy farmers in this region on all milk sold by them. The payments are designed to compensate dairy farmers for increased costs of feed and labor not reflected in the prices they receive from milk. Evidence with respect to such increases in this region was considered in connection with the determination of the dairy production payment rates. hearing record does not indicate that producers in the Washington market have experienced greater increases in costs of feed and labor than those encountered by other dairy farmers in this

particular area.

With respect to production trends, receipts of milk from local inspected producers increased by approximately 24 percent between 1940 and 1944. This increase was achieved by an increase of 9 percent in the number of producers supplying the market and 12.3 percent in average deliveries per day per dairy. During the same period, total production of milk on farms in the United States increased 10.4 percent. During the 6 months ending with February 1945, receipts of milk from local inspected producers for the Washington market were 4.6 percent higher than during the same 6 months a year earlier. For the United States as a whole, the increase in milk production on farms for the same 6 months was 2.9 percent higher than during the same 6 months a year earlier. Monthly figures introduced into the hearing record show that market receipts from local inspected producers exceeded those during the same month a year earlier in 9 of the 10 months ending with Februray 1945. Sales of fluid milk and milk drinks in the marketing area also exceeded sales during the same month a year earlier in 8 of the 10 months ending with February 1945. The increases in market receipts from local inspected producers, however, were generally in excess of the increases in sales of fluid milk and milk drinks, in the marketing area. The result was that in 8 of the 10 months ending with February 1945, the excess of market receipts over sales of fluid milk and milk drinks in the area was greater, or the deficit was smaller, than in the corresponding month a year earlier. In the 12 months ending February 1945, the deficit of producers' milk was greater in relation to sales in the market of milk, milk drinks, cottage cheese, and cream in the winter months, and the deficit was less in the summer months than in the previous year.

These data and analyses indicate that under the present prices and with dairy production payments which are being made, there is being achieved a balance of receipts from local producers and the local sales of fluid milk and milk drinks in the area. Although the margin between demand for those products which usually are made from locally inspected milk and the local supply is still widening, the current deficit is principally due to sales of cream and cottage cheese. To advance the Class I price of milk at this time in an effort to hasten the achievement of a complete supply of locally inspected milk is not found to be in the public interest.

This report filed at Washington, D. C., this 19th day of September, 1945.

FEDERAL POWER COMMISSION.

[Docket No. G-659]
KENTUCKY NATURAL GAS CORP.
NOTICE OF APPLICATION

SEPTEMBER 17, 1945.

Notice is hereby given that on September 4, 1945, Kentucky Natural Gas Corporation (Applicant) a Delaware Corporation having its principal place of business at Owensboro, Kentucky, filed with the Federal Power Commission an application for a temporary certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act. as amended authorizing it to (1) operate an existing connection between the transmission pipelines of Tennessee Gas and Transmission Company (Tennessee Company) and Applicant located in Barren County, Kentucky, from December 1, 1945, until April 1, 1946, and (2) install heavy weight gate valves in place of the present light weight gate valves on Applicant's 6-inch connecting pipeline.

The application recites that the estimated peak day requirement for the winter 1945–1946 will be 27,500 mcf compared with a peak day requirement on Applicant's system during the winter of 1944–1945 of 26,491 mcf.

On December 16, 1944, (in Docket No. G-558), this Commission granted Applicant temporary authorization to operate the pipeline connection referred to above until April 1, 1945. On the peak day of the winter of 1944-1945, Applicant obtained from Tennessee Company 2,470 mcf through such connection.

Applicant now seeks authorization to operate the connection with the Tennessee Company's pipeline in order to receive from the latter 5,250 mcf of natural gas, either by allocation or by contract, in order to meet the 1945–1946 winter peak day demand. It is asserted that the heavier valves must be installed because with the present fittings it is not practicable for Applicant to receive through its 6-inch line gas at the rate of 5.250 mcf per day.

According to the application, the additional gas is required by reason of the depletion of Applicant's wells which are expected to produce only 4,250 mcf on the peak day of the winter 1945–1946. This quantity of gas added to 15,000 mcf to be received from Panhandle Eastern Pipe Line Company and 3,000 mcf of storage gas leaves a deficit of 5,250 mcf needed in order to satisfy the peak demand of 27,500 mcf.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 2d day of October 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

COSTS AND EXPENSES INCURRED IN CERTAIN
ACTIONS OR PROCEEDINGS IN CERTAIN
CALIFORNIA COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A:

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A.

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 14, 1945.

[Vesting Order CE 43]

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN NEW JERSEY COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

scribed in Column 5 of said Exhibit A; and Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 14, 1945.

[SEAL] JAMES E. MARKHAM, Alien Property Custodian.

JOSEPHINE G. FLEITAS CIGAR FACTORY

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion accompanying this order, and pursuant to § 1358.102 (b) of Maximum Price Regulation No. 260, It is ordered, That:

(a) Josephine G. Fleitas Cigar Factory, 1906 10th Avenue, Tampa 5, Fla. (hereinafter called "manufacturer") and wholesalers and retailers may sell, offer to sell or deliver and any person may buy, offer to buy or receive each brand and size or frontmark, and pack-

ing of the following domestic cigars at the appropriate maximum list price and maximum retail price set forth below:

Brand	Size or frontmark	Pack- ing	Maxi- mum list price	Maxi- mum retail price	
Mahoma	Lords		Per M \$101. 25		

(b) The manufacturer and wholesalers shall grant, with respect to their sales of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the discounts they customarily granted in March 1942 on their sales of domestic cigars of the same price class to purchasers of the same class, unless a change therein results in a lower price. Packing differentials charged by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class may be charged on corresponding sales of each brand and size or frontmark of cigars priced by this order, but shall not be increased. Packing differentials allowed by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class shall be allowed on corresponding sales of each brand and size or frontmark of cigars priced by this order and shall not be reduced. If a brand and size or frontmark of domestic cigars for which maximum prices are established by this order is of a price class not sold by the manufacturer or the particular wholesaler in March 1942, he shall, with respect to his sales thereof, grant the discounts and may charge and shall allow the packing differentials customarily granted, charged or allowed (as the case may be) in March 1942 by his most closely competitive seller of the same class on sales of domestic cigars of the same March 1942 price class to purchasers of the same class.

(c) On or before the first delivery to any purchaser of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the manufacturer and every other seller (except a retailer) shall notify the purchaser of the maximum list price and the maximum retail price established by this order for such brand and size or frontmark of domestic cigars. The notice shall conform to and be given in the manner prescribed by § 1358.113 of Maximum Price Regulation No. 260.

(d) Unless the context otherwise requires, appropriate provisions of Maximum Price Regulation No. 260, shall apply to sales for which maximum prices are established by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 20, 1945.

Issued this 19th day of September 1945.

FLUID MILK IN ATLANTA REGION

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator, Region IV of the Office of Price Administration by § 1499.75 (a) (9) (ii) (c) of the General Maximum Price Regulation, § 1351.807 (b) (3) of Maximum Price Regulation 280, and § 1351.408 (g) of Maximum Price Regulation 329, it is hereby ordered that the above enumerated orders be amended in the following respects:

1. Section 1 is amended by adding a new paragraph (c), to read as follows:

On and after September 18, 1945 all quantity limitations on the sale of special fluid milk at a premium price set forth in any order issued under the General Maximum Price Regulation, Supplementary Regulation 14, Supplementary Regulation 14A, or any individual order issued pursuant to this order since April 15, 1945, are revoked.

Section 3 (g) is amended to read as follows:

"Special fluid whole milk" means a particular seller's Grade A fluid milk which in addition conforms to at least one of the following standards: (1) "Breed" milk which complies with the published production and distribution standards and requirements of any national dairy breed association such as the American Jersey Cattle Club and the American Guernsey Cattle Club; (2) "Certified" milk which complies with the published production and distribution standards and requirements of the American Medical Milk Commission or its duly authorized agents; (3) "High butterfat" milk which contains more than 3/4% of butterfat in excess of the minimum butterfat standards established by any federal, state or local government agency for "approved fluid whole milk"; and (4) "Special processed" milk which has been subjected to additional processing other than by cooling, weighing, testing, reconstituting, bottling, standardizing or separating, for example, homogenization and/or "fortification" with Vitamin D.

3. Section 7 is amended to read as follows:

SEC. 7. (a) Each seller named in section 16 or in any special order issued between April 15, 1945, and September 18, 1945, pursuant to this section is authorized to sell special fluid whole milk of the type there specified at the maximum prices set forth opposite his name or in such special order. These maximum prices set forth opposite his name

mum prices have been established by filings under Supplementary Regulation 14A, by orders issued by the Atlanta Regional Office pursuant to Supplementary Regulation 14A, and under this order. All quantity limitations contained in any special order issued pursuant to this section are deleted from such special order, effective September 18, 1945.

(b) Except as otherwise authorized in section 16 or by special order issued pursuant to this section, no person shall sell a "special fluid whole milk" at a premium price except in accordance with the fol-

lowing provisions:

(1) Any seller of a "breed" milk as defined in section 3 (g) may add 1¢ per quart and ½¢ per smaller container to the maximum price set forth in the applicable table in section 14 for the same quantity of "approved fluid whole milk";

(2) Any seller of a "certified" milk as defined in section 3 (g) may add 2¢ per quart and 1¢ per smaller container to the maximum price set forth in the applicable table in section 14 for the same quantity of "approved fluid whole milk";
(3) Any seller of a "high butterfat"

(3) Any seller of a "high butterfat" milk may add a premium only in accordance with the following provisions:

ance with the following provisions:

(i) Any seller of a "high butterfat" milk named in section 16 or by special order pursuant to this section since April 15, 1945, may sell such milk at the premium price set forth opposite his name

or in such special order.

(ii) Any seller unable to establish a maximum price under the foregoing provision may not sell a "high butterfat" milk at a premium price until he applies in writing to the Atlanta Regional Office, Candler Building, Atlanta 3, Georgia, for permission to sell such "high butterfat" milk at a premium price and is granted such permission by written order from that office.

The application shall be in duplicate and shall contain a statement setting forth the following:

(a) The maximum price charged by the applicant for such "high butterfat" milk during March, 1942;

(b) The prevailing price of standard approved milk in the same market area during March, 1942; and

(c) The name of all communities in which the applicant sold "high butter-fat" milk at a premium price over standard whole milk during March, 1942, and April, 1945.

If the applicant did not sell a "high butterfat" milk in a particular market during March, 1942, and/or April, 1945, he must present evidence that another seller has on or before April 30, 1945, established a premium price for a "high butterfat" milk in such market.

(4) A seller of "special processed" milk may not sell such milk in excess of the maximum price for standard fluid whole milk unless he has applied to the Atlanta Regional Office and received permission to sell such special milk at a premium price and is granted such permission by a written order from that office. The applicant must show, unless otherwise provided below, that he had an established premium price during or prior to April, 1945, or that another seller in such market had established a premium price for the particular type of "special proc-

essed" milk in such market on or before

April 30, 1945;

Except, that a seller of such "special processed" milk which has been subjected to a processing consisting of both homogenization and "fortification" may charge a premium of 1¢ per quart and ½¢ per smaller container over the maximum price for standard fluid whole milk provided by the applicable table in section 14.

(5) Any seller of a "breed" milk or "certified" milk who desires a higher maximum premium price than that provided by section 7 (b) (1) or (2) of this order may apply in writing to the Atlanta Regional Office for permission to sell such special milk at a premium price higher than that provided by such general provisions.

The application shall indicate specific reasons why the general provisions in section 7 (b) (1) or (2) are unsatisfac-

tory.

The application must present evidence that the applicant or another seller in the particular market area had the same established premium price differential for the same type of milk prior to April 30, 1945, as that requested in the application.

(c) Except for the named special buttermilks authorized to the specific sellers named in section 16 or in a special order issued pursuant to this section subsequent to April 15, 1945, no person shall sell a "special" buttermilk at a premium price on or after September 18, 1945, unless he applies in writing to the Atlanta Regional Office, Candler Building, Atlanta, Georgia, for permission to sell such special buttermilk at a premium price and is granted such permission by written order from that office. The application shall show:

(1) Each type of special buttermilk sold at a premium price during the months of March, 1942 and April, 1945;

(2) The established price for each size and container type sold by the applicant during such time and the prevailing price of plain buttermilk during March, 1942, in the particular market; and

(3) The names of all communities where the applicant sold special buttermilk at a premium price over plain buttermilk in March, 1942 and April, 1945.

Unless the applicant is able to present evidence that he had an established premium price during March, 1942 or that another seller has established a premium price for a "special" buttermilk in the same particular market, the Atlanta Regional Office shall not grant the applicant permission to sell "special" buttermilk at a premium price.

(d) The Atlanta Regional Office may correct or revise any maximum prices established for any type of special milk, having due regard to the differentials

prevailing in adjoining areas.

(e) No authorized seller may charge a premium price for a "special" whole milk or a "special" buttermilk unless each container is marked or otherwise designated in such a manner as to clearly differentiate it from the standard whole milk and/or plain buttermilk on which the seller has established a maximum price under the applicable table of section 14. Sales of any "special" milk in

a container which is not so differentiated shall be at prices no higher than the maximum prices established for the particular container type of standard whole milk and the class of sale established by this order.

(f) No seller who on or before April 30, 1945, offered a standard and special whole fluid milk and/or a plain and special buttermilk shall discontinue offering standard fluid whole milk and/or plain buttermilk. If the purchaser from such a seller cannot obtain standard whole fluid milk or plain buttermilk when ordered and the seller elects to deliver special whole milk or special buttermilk, as the case may be, the maximum price for such special fluid milk may not exceed the maximum prices established by the applicable table of section 14 for standard fluid whole milk or plain fluid whole buttermilk, as the case may be. A seller who discontinues the sale of standard whole milk or plain buttermilk and continues to sell special whole milk and/or special buttermilk may not charge for such special milk a price in excess of the maximum prices established by the applicable table of section 14 for standard whole milk and/or plain buttermilk.

(g) A retail store which purchases special milk at wholesale from a seller entitled by this order or by a special order issued by the Atlanta Regional Office to charge a premium wholesale price on such special milk may add a markup not exceeding 2¢ per quart or 1¢ per smaller container to his supplier's wholesale selling price, but in no case to a cost higher than the supplier's wholesale ceiling price established pursuant to this order.

This amendment shall become effective September 18, 1945.

ALEXANDER HARRIS, Regional Administrator.

PUBLIC SERVICE CORP. OF N. J. AND PUBLIC SERVICE COORDINATED TRANSPORT

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of September, 1945.

Notice is hereby given that a joint application or declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Public Service Corporation of New Jersey (Public Service), a holding company and a subsidiary of The United Corporation, a registered holding company, and by Public Service's non-utility subsidiary, Public Service Coordinated Transport (Transport).

Notice is further given that any interested person may, not later than October 1, 1945, at 5:30 p. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said joint application or declaration, as filed or as amended, may be granted, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3. Pennsylvania.

All interested persons are referred to said joint application or declaration, which is on file in the office of the said Commission, for a statement of the transactions therein proposed, which

are summarized below:

Public Service proposes to sell \$500 .-000 principal amount of Transport's 4% Series, First and Refunding Mortgage Bonds, due 1990, to the Trustee under Transport's mortgage, for a cash consideration of \$500,000 plus accrued interest to the date of delivery. It is stated that the price of \$500,000 represents cost to Public Service for such bonds. Trustee proposes to purchase said bonds with \$500,000 which, pursuant to the terms of the indenture securing the bonds, was the amount deposited with the Trustee on April 1, 1945 as and for a fund for the purchase and retirement of Transport's outstanding bonds. The Plan of Reorganization of Transport dated November 2, 1939 provides that Public Service will not tender to the Trustee any of the bonds of Transport held by it until at least five months after receipt of purchase fund money by the Trustee. According to the declarants. over five months have elapsed since the deposit of the purchase fund money by Transport with the Trustee and although the Trustee caused to be published notice requesting tenders, no tenders have been received from the public.

PUBLIC SERVICE COMPANY OF OKLAHOMA

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 18th day of September, A. D. 1945.

Public Service Company of Oklahoma (Public Service), a public utility subsidiary of Central and South West Utilities Company, a registered holding company, which is in turn a subsidiary of The Middle West Corporation, also a registered holding company, having filed applications and declarations pursuant to The Public Utility Holding Company Act of 1935, particularly sections 6, 7 and 12 thereof, with respect to the transactions which are summarized as follows:

1. Public Service proposes to issue and sell at competitive bidding, pursuant to the requirements of Rule U-50, \$22,500,-000 principal amount of First Mortgage Bonds, Series A, to mature July 1, 1975, and 98,500 shares of Cumulative Preferred Stock of the par value of \$100 per share. The interest rate on the bonds and the dividend rate on the preferred stock, as well as the prices to Public Service for these securities, are to be determined by competitive bidding.

2. Public Service proposes to use the proceeds from the sale of the bonds and preferred stock, together with other cash as required, for the redemption of its outstanding bonds and preferred stock:

3. The offering of preferred stock is subject to an exchange offer whereby the holders of the outstanding 5% preferred stock of Public Service may exchange the same for the new stock on a share for share basis with a cash adjustment for the difference between the redemption price of the 5% preferred stock and the public offering price of the new preferred stock.

Public Service having proposed to solicit proxies in connection with a special meeting of the stockholders of the company to be held on or about October 22, 1945, to vote upon the proposed bond issue and matters related thereto; and having filed copies of the proxy, the proposed notice of the special meeting of the stockholders and proxy state-

ment; and

Public Service having requested that the declaration with respect to the proxy solicitation material be considered and disposed of independently of the principal transactions and that the Commission enter its separate order permitting said declaration as to all such proxy solicitation material to become effective; and

It appearing that the solicitation of authorizations of stockholders, as proposed to be conducted, does not make it necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of the provisions of the act or the rules and regulations thereunder that the Commission issue any order with respect thereto other than an order permitting the declaration as to such solicitation to become effective;

It is therefore ordered. That, without passing upon the merits of the applications or declarations filed pursuant to sections 6, 7 and 12, the declaration as to solicitation of authorizations be and it is hereby permitted to become effective forthwith.

NORTHERN STATES POWER CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 18th day of September, 1945.

Notice is hereby given that an application or declaration has been filed with this Commission under the Public Utility Holding Company Act of 1935 and particularly sections 6 and 7 and Rule U-50 promulgated thereunder, by Northern States Power Company (Minnesota) (hereinafter referred to as Northern States), a public utility subsidiary of Northern States Power Company (Delaware), a registered holding company.

All interested persons are referred to said document which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Northern States proposes to issue and sell, pursuant to the competitive bidding provisions of Rule U-50, \$75,000,000 principal amount of First Mortgage Bonds, Series due October 1, 1975. Each proposal for the purchase of the bonds shall specify (a) the coupon rate which shall be a multiple of 1/8 of 1% and (b) the price to be paid to Northern States for the bonds which shall be not less than the principal amount nor more than 102.75% of the principal amount. The proceeds of said sale together with the general funds of Northern States, to the extent required, are proposed to be applied by Northern States to redeem the \$75,000,000 principal amount of its First and Refunding Mortgage Bonds, 31/2 % Series, due February 1, 1967, at the redemption price of \$78,187,500 (1041/4 % of the principal amount thereof) plus accrued interest.

The bonds will be issued under and secured by a Trust Indenture from Northern States to Harris Trust and Savings Bank as Trustee, dated February 1, 1937 as supplemented by Supplemental Trust Indenture, dated June 1, 1942, and February 1, 1944, and a Supplemental Trust Indenture, dated as of October 1, 1945, mortgaging as security for the payment of the bonds substantially all of the

properties of Northern States.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application or declaration and that said application or declaration shall not be granted or permitted to become effective except pursuant to further

order of the Commission:

It is ordered, That a hearing on said application under the applicable provisions of the act and the rules of the Commission thereunder be held on October 2, 1945, at 10:00 a.m., e.s.t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing.

The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Com-

mission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve by registered mail copies of this order on the Federal Power Commission, the Public Service Commission of North Dakota, the Railroad and Warehouse Commission of Minnesota, the Public Utilities Commission of South Dakota, and on the applicant-declarant herein; and that notice of said hearing be given to all other persons by publication of this order in the Federal Register. Any person desiring to be heard in connection with these proceedings, or otherwise wishing to participate herein, shall file with the Secretary of the Commission, on or before September 28, 1945, his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That without limiting the scope of issues presented by said application, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed issue of mortgage bonds is reasonably adapted to the earning power and the security structure of Northern States and is necessary and appropriate to the economical and efficient operation of the businesses in which Northern States is presently emaged.

(2) Whether the fees, commissions, or other remunerations to be paid in connection with the issue, sale or distribution of said securities are reasonable.

(3) Whether State laws regarding the proposed issue of mortgage bonds have

been complied with.

(4) Whether the accounting entries to be recorded in connection with the proposed transactions are proper and conform to sound principles of accounting and meet the standards of the act.

(5) Whether the terms and conditions of the issue of said securities are detrimental to the public interest or the interests of investors or consumers.

- (6) Generally whether the proposed transactions comply with the applicable provisions of the act and the rules, regulations and orders promulgated there-
- (7) Whether in the event the application or declaration shall be granted or permitted to become effective, it is necessary to impose any terms or conditions to assure compliance with the standards of the act.

JOURNAL-NEWS CORPORATION

CONSENT ORDER

Journal-News Corporation is a newspaper publisher with offices at 77-79 Bowery, New York City, publishing Jewish Journal and Daily News and The Jewish American Family Magazine and Gazette in New York City and Philadelphia Jewish Morning Journal and Daily News in Philadelphia, Pennsylvania. During the years 1943 and 1944 and the first quarter of the year 1945, Journal-News Corporation used newsprint in excess of the quota which it was permitted to use during the said period, under the provisions of Limitation Order L-240, and in violation thereof. This excessive use of newsprint has diverted a scarce and critical material to a use not authorized by the War Production Board. Journal-News Corporation admits the violation as charged and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Journal-News Corporation, the Regional Compliance Manager and the Regional Attorney, and upon the approval of the Compliance Commissioner;

It is hereby ordered, That:

(a) Journal-News Corporation, its successors or assigns, shall reduce its use of newsprint in the printing and publishing of newspapers under its quota as established pursuant to Limitation Order L-240, by 40 tons of newsprint during the third and fourth quarters of the year 1945.

(b) Nothing contained in this order shall be deemed to relieve Journal-News Corporation, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

Issued this 20th day of September 1945.

WAR PRODUCTION BOARD, By J. JOSEPH WHELAN, Recording Secretary.
